

# God of Thunder

(霸天雷神)

Book 04

Xiao Qian

(萧潜)

## Story Description:

After being transported to another world, Lei XinFeng must struggle to survive. His village is settled in a forest, far away from any major cities.

The simple hunter's life is the norm. The village struggles every year to gather enough food in summer to store for winter.

However, this world is not as simple as it seems. After just turning 16 years old, his grandpa is ready to begin Lei XinFeng's LunLi training.

Just what is Lunli, and what past did his grandpa have? Will the new training help improve his current life, and what obstacles will the coming winter bring?

Original Story can be found here: [Link](#)

# Chapter 1: Coercion (1)

The corners of Lei Bao's smile curled up, a surge of his tyrannical aura spread in the surroundings while Tai Lang complained in his heart, he walked forward and grabbed hold of Lei Bao, softly speaking, "Old brother Lei. This matter.....let me take care of it, hehe, if I were to do it.....and you found my actions unsatisfactory, then you'll step in, how's that plan?" He looked worriedly at Lei Bao, if he still had the same temper as the past him, then he would definitely reject this notion.

This time, Lei Bao did not persist and after thinking for a while, he nodded, "Alright, I'll wait here for you, remember, do not let my men suffer!"

Yan Wu glanced at the old man with a slightly astonished expression, in this meeting, he had noticed that the old man had gone through some obvious changes, even A Silan found it strange, she also obviously knew of the old man's temper and did not expect him to actually be able to suppress his anger.

Tai Lang made a decision almost instantly, even if the old man Lei Bao's team had killed, he would take his side and suppress these small sects, which was why he said, "Who, among all of you, saw them kill?"

The seven true masters were speechless, they tracked with their desert hunting dogs here, they could only prove that this team walked this route and that the disciples on it disappeared, but they did not see them kill.

If the strength of this team was ordinary, then they did not even need to prove anything, they would just massacre them all as revenge, but this group was at Stellar Night Fortress, they did not dare to kill, they could only capture this team that had stayed outside, but they did not expect that this team had men in Stellar Night Fortress and that Tai along would appear among them, which prevented them from extorting an confession.

Tai Lang spoke, "If you did not see them kill, why would you capture them, immediately release them!"

Lei Bao slightly checked the opponents, noticing that the strongest

among them was only a true master with three true ring bodies, their strength was terrifying for normal practitioners, but to him, it was not even worth a mention, however this was already the strongest force in this group of 20 small sects, with the sudden appearance of seven true masters, it showed the importance of this matter.

This true master that had three true ring bodies was Tang Shi of the Great Eagle Sect, the elder of the inner sect within the Great Eagle sect, he was the leader this time.

Tang Shi felt something was off, he was actually on good terms with Tai Lang and was considered his friend, of course there is different types of treatment for the varying amount of intimacy with different people, his relationship with Tai Lang was incomparable to Tai Long and the old man Lei Bao's. He spoke, "Tai Lang.....senior....." He originally wanted to call him Old Brother Tai Lang, but seeing the stern expression on Tai Lang, he changed it to Tai Lang senior.

"Tai Lang senior, I cannot free them.....I need to interrogate them, if they have no relations with the murders, then I will take responsibility for the compensation required as an apology."

Tai Lang scolded, "Bullshit!"

For them to interrogate, not only will Lei Bao refuse, even he would refuse, he knew the other sides methods, even if they didn't kill, they would let them admit to it, no one could withstand the interrogations of a practitioners, it was an experience that left the victims wishing for death.

Tang Shi straightened his back and spoke while staring at Tai Lang, "Senior!"

Tai Lang waved his hand, "Don't fucking speak about interrogation! They are not people you can interrogate, if you bring out proof of their killings, I can negotiate, but if you want to do things recklessly, I will stop you!"

Tang Shi felt a surge of impatience, if he could not find the killer, then the entire alliance of the small sects will collapse, he needed to find the killer, only then will he quell the rage of the crowd, but Stellar Night

Fortress was not something he could offend, he felt extremely helpless, after thinking for a while, he spoke, "We need to discuss something for a moment."

Tai Lang nodded, "Alright, you all do that, however, I hope that we can quickly have a satisfactory end to this."

Tang Shi led the other True masters and retreated to the other end of the small bridge, the seven of them engaged in a discussion and it quickly caused a verbal fight among them.

Lei Bao hugged his elbows and looked on with a cold expression.

Jin Da Pang and Qi Xuan similarly had cold expression, but XinFeng noticed that there was a glint flashing in Jin Da Pang's eyes, revealing his anger. Jin Da Pang was very clever, in the presence of powerful experts, he knew that he was not strong enough, if the old man Lei Bao and the others weren't here, he would be unable to resist, even if he were the officer of Xi Rong nation, he still would not be able to do anything.

XinFeng deeply experienced the absolute benefits of strength in this world at that moment, it was power of suppression.

The seven of them quarreled for less than ten minutes before they returned, Tang Shi spoke, "We have to interrogate them!"

Tai Lang sighed in his heart and spoke, "The men in this team, belongs to my senior, do you really want to interrogate them, hehe. Then as the landlord, I shouldn't intervene too much, with that, I will stop." He suddenly could not care anymore and turned his head, "Old brother, do as you please."

The old man nodded, "No problem, let me."

Tang Shi suddenly felt a chill, he gritted his teeth and spoke, "Senior, if we had made a mistake, we will take responsibility and compensate you!"

Lei Bao spoke, ignoring him, "A Silan, you take care of Yao Yao and Feng, is that alright?"

A Silan smiled, "Do not worry, I will take care of their safety." As she

spoke, she waved her hand for XinFeng to come closer, hugging XinYao, she retreated a few steps backwards,

Lei Bao spoke again, "Yan Wu, you need not do anything, just take care of my men, they are weak, en, Qi Xuan, Du Hong Chen, the both of you also need not do anything, just help Yan Wu."

Yan Wu smiled, "Old Uncle, don't worry, I don't have any problems."

Lei Bao nodded, "Great!" He then turned to Tang Shi, "Little fellow, don't say that I'm tyrannical, I give you another chance to let my men go."

Tang Shi's face became green, this was too tyrannical, they did not even attempt to negotiate and directly asked for them to free their men, Tang Shi gritted his teeth and replied, "Without an answer, we cannot let them go!" He was determined to see this to the end, thinking that the old man Lei Bao would not dare to do anything against the alliance of 20 small sects, he believed that even if Lei Bao was his senior, he wouldn't do anything easily. A pity that he did not know about Lei Bao's temper and his strength.

The old man Lei Bao laughed, "Interesting, if I spoke these words ten years ago, not a single person would even make a single noise. After ten years, not only does someone dare to make a noise, they even asked again with patience, ai, I'm old, I'm old...."

The surroundings were completely silent, the crowd looked speechlessly at the old man Lei Bao who was loudly sighing, only Tai Lang, A Silan and Yan Wu felt worried, even though they were experts with four or five true ring bodies, they still felt the same hair-raising fear.

This was XinFeng's first time seeing this appearance on his grandpa, he felt curious, it made him lament, he could not keep up with the changes of this world.

Tang Shi seemed as though he wanted to say something, but he suddenly noticed that the old man Lei Bao had already risen into the skies and his heart almost stopped, he suddenly understood something and could not help but shout loudly, "Stop!"

His shout was too late, the old man who was like lightning that struck into the river from the skies, collided with the group of practitioners, and in that instant, countless lightning strikes danced around them, 'pi pa' sounds filling the area, causing hundreds of men to fall limp onto the ground instantly.

The scariest thing was not the convulsing men on the ground, but the fact that the bundled prisoners were completely unscathed, though they were tied up, they continued to stand straight. The leaping lightning formed arc spread speedily, the men on the small bridge could only feel an eye piercing light before them as pitiful cries sounded.

Tang Shi led the other true masters and rushed forward along the small bridge, a surge of cold flashed past his heart, before the old man Lei Bao attacked, he felt that this old man was far too strong, but as the old man attacked, he suddenly felt shocked, the action of taking to the skies meant that this old man was at least an expert that had condensed something stronger than true ring bodies, this sort of expert who may not even appear in large sects, terrified him.

True masters with True Ring bodies were called True Yin masters, if it was seven True Ring bodies, then it was a Wild True Yin master, both of them were terrifying existences. The old man Lei Bao was at least a True Yin master, or perhaps even a Wild True Yin master, how would they even dare against him? His face turned white with regret, he actually irked such a powerful expert, this was called seeking death, no wonder Tai Lang tried his best to stop him, not only was Tang Shi unable to block the attacks, even Tai Lang couldn't.

Tang Shi felt ashamed, he shouted loudly, "Senior stop, we surrender! Stop!"

The old man shouted in reply, "Why should I stop when you tell me to?" As he pounced towards the seven of them.

Tang Shi did not dare to resist, they stood motionless. At that moment, Tai Lang had to come forward to stop him, "Old brother, old brother.....they already surrendered!"

Only then did Lei Bao stop, he spoke, "These fools, only will they surrender after I attack, they are just a group of idiots!"

Tang Shi's forehead was drenched with sweat while he cried without tears, this old man was too abnormal, who knew he had such a terrifying amount of strength, he saw that thick lightning strike reaching his body, but with Tai Lang's shout, it disappeared.

On the ground was twitching practitioners, the old man Lei Bao had shown mercy this time and did not take any lives, all of them were merely struck with lightning. After all he knew, because of the past misunderstanding, they killed so many of their men and that if he were to mercilessly massacre them this time again, he would be going overboard.

Tang Shi had great eyes, with only a glance, he knew that the opponent had been merciful. The opponent could have killed them all and would not even have to fear that Tang Shi would exact revenge, the opponent was too strong, it made other's feel hopeless.

The seven of them understood that even if this group was related in the deaths of their disciples, they are powerless to exact revenge. This was their first time hoping that they weren't involved, and even if this group was involved, they would deny that fact and say these men were innocent, even if they killed, they must pretend they didn't.

Lei Bao looked down on these men, according to his temper, these men were all fucking soft boiled eggs, he spoke, "Remember, give my underlings an apology and also compensation!"

## Chapter 2: Coercion (2)

TLNote: Oh, one thing, when I say 'Dozen' in the text, don't assume it's 12, because Chinese people like to say 10+, and it looks weird in English if I were to put '10+' in text, so I use dozen as a substitute, is there a better way though, or you guys don't mind if I use 10+?

Oh, and I'm changing the thing where like originally I use Huo Lun Attribute, now I'm using Fire Lun Attribute, sorry I didn't do that earlier. Also, Lun Chang space is now Hidden Lun space, Chang = hide.

\*

Tai Lang laughed bitterly, words were useless, they would only be satisfied after Lei Bao attacked. They were like candles who refused to burn unless you lit them.

Lei Bao spoke, "Pang, you stay here and settle this, remember.....if you're unsatisfied, tell me! Understand?"

One word described what Jin Da Pang felt, satisfied, he was satisfied to the bone, there were seven True Masters, who did not even have the courage to fight, this sight made him rub his eyes, it was too exaggerated. The True Masters he had seen were all proud to no ends, he had never thought there would be a time where they would act like weaklings.

"Ai, yes, old master...." He excitedly charged.

The old man Lei Bao then said, "Let's go, let's return,"

The matter was resolved through Lei Bao's suppressing power and it did not attract attention.

.....

Tang Shi and his men all sincerely apologized, they even compensated a good amount of gold rings. Jin Da Pang also did not bully them, he understood that despite it being a misunderstanding, they had after all killed. He did not wish to complicate the matter further and halfheartedly put an end to this matter.

The old man Lei Bao and everyone else temporally stayed at Stellar Night Fortress.

XinFeng loved that umbrella like structure at the Night Fortress, he only understood at night why it was called Night Fortress, the glow of the stars and the candlelight of the Night Fortress joined together to form an splendid glow, it was a rare and beautiful sight. As he was the grandchild of Lei Bao, he had the right to stay at the wooden floor in the middle of the Night Fortress, it was a room at the highest floor, the third floor.

As for Xinyao, she stayed where A Silan was, perhaps as Xinyao had never received such considerate and doting care, she who was doted on by A Silan had caused her to feel uncomfortable at first, but now she enjoyed it and quickly started to call A Silan her master. After all, she was only a small girl who hadn't experienced such deliberate yet pleasing pampering, now that she did, she quickly grew close to A Silan.

As Xinyao loved to be together with XinFeng, she always goes to her brother's room, causing A Silan to follow her as well, within these few days, not only did the relationship between Xinyao and A Silan grow, even the relationship between XinFeng and A Silan grew, the two of them would occasionally chat with each other.

Using this chance, XinFeng learnt about a few questions he had concerning practicing, every expert at the level of True master would have their own set of skills, knowledge and their experience outside, situations revolving around each place and also the famous practitioners sects and clans, each area of influence, these were the contents of XinFeng's questions.

A Silan also noticed the impact XinFeng had on Xinyao and the attachment the little lady had for her brother, only afterwards did she learn that Xinyao was brought up by XinFeng, ever since she stopped drinking milk, he would bring her wherever he went, they were extremely close, XinFeng had taken up the position of the little lady's parents.

After learning of this fact, she became kinder to XinFeng, with Xinfeng's mature personality as well as his cautious thinking, A Silan had a good

impression of the siblings.

A Silan had a proficient medicine production, she had reached a master's level in her knowledge of the uses of all kinds of plants, blood essence of animals and also minerals, for some unknown reason, she started to impart this knowledge, to of course attract Xinyao's interest, but in the end, XinFeng was much more interested.

Xinyao was a child and it was hard for her to have interest in these sorts of things, but XinFeng was different, he knew clearly the importance of such knowledge, so upon learning of it, he asked her to teach him. It was a pity that he did not have the Green Lun attribute, even if he acquired the knowledge of making medicine, he would not be able to reach the standard of a master. However, even so, XinFeng kept learning nonstop, shocking A Silan, she had seen many children around his age who only knew how to play, but refused to seriously learn, there were only a few children like XinFeng who were willing to take the initiative to learn a new type of knowledge.

(Putty: Green Lun attribute was originally the Lv attribute, the one that Xinyao had.)

The knowledge of crafting medicine opened XinFeng's eyes, it was entirely different from the medicine from his past life, although he was unable to make high graded medicine, he was capable of making simple medicine. The most important knowledge to him was to be able to discern useful plants, minerals, animals, blood and also all sorts of weird things, without knowledge, many useful things would be overlooked and classified as useless.

He especially wanted knowledge regarding rare plants, animal blood and precious minerals, as well as high grade purification methods, to be able to learn about those was already worth it.

A Silan taught diligently, she even gave a Star Python Record that had her own recorded list of all sorts of ingredients to XinFeng, she wished to let Xinyao see the effort she put in, and that she did not only treat the little lady well. But her brother too.

Xinyao was very smart and had a pure child's mind, she could discern between those that treated her well and those who harbored malicious intent, A Silan's efforts did not go down the drain, Xinyao had gradually accepted her, which elated A Silan.

For ten days, neither Xinyao nor XinFeng left the house, mostly it was XinFeng who did not want to go out, he had been diligently absorbing the new knowledge, which pleased the old man Lei Bao, he even specially came to thank A Silan.

A Silan also gave XinFeng a dozen high grade medicines, which were mainly used for healing this sort of medicine was very precious, in key moments, it could be used to save a life.

Within this period of time, Stellar Night Fortress also invited a few True masters, all of them were the old man Lei Bao's friends. One of them was actually a True Yin Master that had condensed a True Ring Body. The fire attribute was the most common attribute in this world, but the amount of people that had the fire attribute and reached the level of a True Yin Master were small, the Fire Lun attribute's attacks were very strong, and with the rise to the higher levels, it becomes capable of unleashing its ultimate effect.

This man called Gelu was a burly, red faced man with the rarely seen red hair on his head, it was said that he had black hair like normal humans in the past, but ever since he condensed four True Ring bodies, his hair started to change, from brown to red, after condensing a True Ring body, even this fellow's eyebrows became brown.

There was also two experts with four True Ring Bodies, their age was enough for them to be classified as old women, one of them was called An Yadan, the other was called Tai Popo.

(Putty: Author is cruel, he named Jin Da Pang and Tai Po Po with no effort, Jin Da Pang is literally gold fatty, gold being a part of the city's name while the old lady is literally Great Grandma.)

Although An Yadan seemed old, she had dressed herself to be extremely flirtatious, thick white powder covering her face. This was Xinyao's first

time seeing such a sight and she immediately hid in A Silan's embrace without even daring to peek, this woman had flashed her a smile, her large red lips scaring the little lady.

Tai Popo also dressed strangely, on a hot day, she wore an expensive fur, it was said that she came from an extremely cold place, her body carried a chill with her, even in a place near the desert, the chill could not be eradicated.

The three of them were all weirdos, XinFeng felt curious, out of all the friends grandpa had, there isn't a normal person, it was just Tai Lang, Yan Wu and A Silan that seemed rather normal.

In these few days, XinFeng caught the eye of An Yadan, ever since she noticed that he had a single attribute, Lightning Lun, she started to pester Leo Bao, wanting to take XinFeng away, that made the old man angry but this woman was thick skinned and did not care in the slightest. She would also go to XinFeng and speak nonstop, flaunting all sorts of weird items in an attempt to attract Xinfeng's attention.

It even scared XinFeng and caused him to stay next to A Silan, in his eyes, An Yadan was a crazy woman, she isn't even a Lightning Lun practitioner, it was said that one of her masters was a Lightning Lun expert, forcing Lei Bao to warn An Yadan to not harass XinFeng.

An Yadan could not beat the old man Lei Bao and could only temporarily stop her harassment, according to her XinFeng would one day learn of her Master's mightiness, and at that moment he would come and plead her to learn.

XinFeng could not care less about this woman, he made good use of his time and stayed at A Silan's side, diligently learning. It was as if Xinyao also knew about her brother's urgency and started to please A Silan adorably, wrapping her in the little lady's fingers. A Silan taught all that she could and all that she couldn't, as for how much XinFeng could learn and understand, it was left up to his own comprehensive ability.

On this day, Tai along gathered everyone at the wooden house in the middle of the Night Fortress.

XinFeng and Xinyao also followed A Silan. In the large living room were two rows of tables and chairs, the crowd all sat down and XinFeng sat behind the old man Lei Bao, Xinyao sat in A Silan's embrace as usual, within this period of time she had already become accustomed to A Silan's hugs.

Tai Lang spoke, "There's news, we need to discuss when we will depart."

The old man Lei Bao spoke, "Has the Hidden Lun space appeared?"

Tai Lang spoke, "It has already revealed its image, there is already people rushing there, however, until now, an acceptable expert hasn't appeared."

The old man Lei Bao spoke, "The experts will appear, it'll all depend on the value of this Hidden Lun space, hehe, I hope it's an ancient one, only then will good stuff appear, it really is worth the wait, it's been a long while since the last acceptable Hidden Lun space."

Tai Lang spoke, "That's right, for dozens of years, a few Hidden Lun spaces have appeared, but they weren't much, let's hope for a surprise this time round."

The crowd discussed among themselves. The value of an ancient Hidden Lun space was something everyone knew, if they were to find some special items, it would greatly benefit them.

There wasn't a practitioner capable of resisting the temptation of a Hidden Lun space, there were too many strange things in it that did not belong to this time, as well as practicing methods of the past, it may not be suitable, but nothing stopped them from absorbing useful knowledge, the only downside was that with an ancient Hidden Lun space's appearance, it would attract large amounts of high leveled practitioners, if there wasn't a strong practitioner leading, then the low leveled practitioners would not be able to get anything, and may even lose their lives.

Tai Lang spoke, "I also received a piece of news, perhaps it would be interesting to everyone."

The old man Lei Bao asked, “What news?”

-----

# Chapter 3: The Best Spot (1)

A smile revealed itself on Tai Lang's face as he spoke, "The Hidden Lun space was originally estimated to appear two months later, however after further inspection, it seems likely for it to appear within roughly 10 days, which also means.....our team is the closest."

The closer they were, the better the chances. Along with the fact that the men that the old man Lei Bao gathered all had great power, they were incomparably strong.

Gelu spoke, "If it's like that, let's prepare ourselves for a moment and quickly depart."

Lei Bao agreed, "En, the first group to arrive will receive the largest rewards, though the danger is also the largest. Alright, let us go as soon as possible."

As the amount of experts participating were not small, Tai Lang did not bring too many people, he still needed experts to guard his lair, it would not be good for everyone to leave and that was why he only brought a few MiLun and Ten Thousand Lun masters, their main purpose was to transport their supplies as practitioners rarely store their food items into their Hidden Lun space unless it was a peculiar situation, for practitioners, their Hidden Lun space was a gift from the heavens and was absolutely not used to keep miscellaneous items.

Of course, XinFeng never had that concept, he felt that the Hidden Lun Space was merely a mobile warehouse, its use was to carry his items and supplies. The only thing that gave him a headache was that the size of a Ten Thousand Lun master's Hidden Lun space was far too small, if he were to put too much food in it, then it would not have enough space left.

This time it was mainly True masters that were going, others like Jin Da Pang, Yan and XinFeng were also mixed into the team, as for Xinyao, she was left at Tai Lang's and because A Silan felt uneasy, she gave away this chance and also stayed at Night Fortress, she did not want anything to happen to Xinyao, and with that reason, XinFeng approved of her.

It was not that they did not want to bring Xinyao along, it was just that that place was too dangerous, and for the young Xinyao who hadn't started training yet, if anything were to happen, neither Lei Bao nor XinFeng would be able to bear that.

Luckily, A Silan took the initiative to stay, easing the worries in XinFeng and Lei Bao's hearts.

.....

The location where the Hidden Lun space appeared was in the desert, to go to that place from Stellar Night Fortress, they needed to go to a Lun Spot and through the Ancient Lun passage, like that, they could reduce a portion of the journey and would only need 10 days to reach their destination.

In the seemingly endless sand dune, they trekked though it while leading a dozen Sand Tuo beasts, their main purpose was to carry water bags, as the most lacking resource in the desert was water and they needed to use up large amounts of it every day, of course if there was really no water left, practitioners could also condense water, for example Tai Popo who had the Ice Lun attribute could condense water for them if it was a dire situation, however, if it wasn't, it would be impossible to ask an expert with Four True Ring bodies to do such a simple task.

XinFeng sat on the Sha Tuo beast's back, under the hot sun, he felt extremely uncomfortable. Glancing at Tai Popo occasionally, he couldn't believe it when he saw her continue to wear her thick fur, even at this place, and that she did not even sweat a single drop, if one was to get close to her, they would be able to feel a wave of chilling coldness. There was even faint mist floating around her, giving people an extremely strange impression of her.

An Yadan would move close to XinFeng occasionally, using the chance to speak to him, she hadn't gave up yet.

With these few days of contact, XinFeng notice that An Yadan did not have any malicious intent and he gradually did not hide from her as much as the past.

Thousand Sand Barrier.

That was that place where the Hidden Lun space appeared, it had a complex climate and normally had sandstorm like winds appearing.

Thousand Sand Barrier was a place that even Barbarians would not dare enter, those capable of reaching that place definitely were practitioners, high leveled practitioners. To normal human, this was a land of no hope, those that entered would not hope of escaping.

After entering Thousand Sand Barrier, the temperature rose rapidly, XinFeng noticed that Tai Popo's pale, cold face had a red flush, according to XinFeng's estimation, the temperature here was at least 70 degrees, everyone could not help to put on their protection to block the hot temperature of this place.

XinFeng opened his Ring Armor and instantly felt a drop in the temperature around him.

In the team was many Fire Lun practitioners whose faces revealed a comfortable expression, those with the Fire Lun attribute were easily accustomed to this land, actually, the best attribute for this place was the Light Lun attribute, however the number of practitioners with that attribute was even smaller than the practitioners with the Lightning Lun attribute.

Luckily there wasn't any normal humans with them, with only this temperature, within a small amount of time, it was enough to kill them.

XinFeng sat on the Sand Tuo beast, surveying his surroundings. Actually other than dunes, there wasn't anything else here. The sand dunes distorted under the hot temperature, it was a land of gold and heat, without a trace of green, the color was extremely monotonous.

Suddenly, XinFeng spoke, astonished, "What the.....a mirage!"

An Yadan who also rode a Sand Tuo Beast close to XinFeng heard him and asked, "What's a mirage?" This world did not have the concept of a mirage, the aforementioned mirage was optical phenomenon in which light rays are bent to produce a displaced image of distant objects or the

sky, which frequently occurred in deserts and the sea.

(Putty: too lazy to translate his version of the explanation and copy pasted Google's definition.)

XinFeng did not see a real Mirage in his past world, but this kind of information spread like wildfire, allowing him to obtain information easily, different from this world, in this world, information was mostly spread through conversations, only practitioners had their own orthographies and their own methods of recording information.

XinFeng stared dazed at the image in the sky, he noticed that the aforementioned mirage was extremely unclear and that he was unable to see anything clearly from it.

Tai Lang laughed, "Haha, it appeared, this is the sign before the appearance of a Hidden Lun space! Old brother Lei, Gulu old brother, can you tell what attribute is that Hidden Lun space? It's too big, I hadn't seen such a big image.....a pity that it's too blurry."

(Putty: He calls Gulu his Old little brother, which sounds weird in text, let's all pretend the brother he says to Gulu is younger, while Lei Bao is the older brother.)

Lei Bao and Gulu both stared into the distance, after a while, the both of them shook their heads, signifying that they couldn't see it clearly.

An Yadan spoke, "Let's go see!"

XinFeng thought silently, if this was a mirage, then no matter how much they walked, they wouldn't reach it as it wasn't a real image, but a distortion of light.

The team walked towards the image in the sky.

As they walked, that image grew larger, which gave XinFeng a shock, it also became a bit clearer. He suddenly understood, the wonders of this world could not be explained by the logic of his past life, this image before him was definitely not a mirage.

"Someone's there!"

One of the men that ran forward to scout, reported.

Tai Lang asked, “Who are they? How many of them are there?”

That man said, “There’s about a dozen as well as fifty Sand Tuo beasts also heading forward.”

Tai Lang nodded, he knew that those capable of reaching this place were definitely practitioners who were also trying to obtain the Hidden Lun space, he spoke, “Continue your scouting and let us continue onwards, we need to care about those men.”

Yan Wu spoke up, “I’ll go check them out....so that we won’t be too confused if we come into contact with them.”

Tai Lang replied, “That’s good, I hope it isn’t Yi Daton....however, I don’t think he’s that fast!”

Yan Wu rode on a Sand Tuo beast along with two Milun masters, he was strong enough to protect both himself and his underlings.

Sending the three of them away, the others continued their journey. XinFeng asked, “Grandma Dan, can you tell what Hidden Lun space this is?”

An Yadan replied, “Don’t call me Grandma Dan, call me Great Grandma Dan!”

(Putty: hilariously, 大奶 can also mean great tits.)

XinFeng could not help but smile bitterly as he thought to himself, ‘Great Grandma Dan? That was too stupid, ai, this woman is definitely not normal.’ In the end he could only say helplessly, “Alright, Great Grandma Dan.”

An Yadan was immediately elated, she spoke, “That’s right, Feng ah, even your grandpa couldn’t tell what Hidden Lun space it is, how could I?”

XinFeng replied, “Great Grandma Dan, what kind of a Hidden Lun space do you want it to be?” He was bored and could only have a bullshit conversation with An Yadan.

An Yadan replied, “I of course hope for it.....to be an ancient Hidden

Lun space, and the higher leveled it is, the better, en, the best is for it to have countless precious items. Haha, old lady I would become rich!”

The higher leveled a Hidden Lun space was, the stronger the deceased practitioner were, no one could obtain immortality, however the ancient practitioners could live for thousands of years easily, unlike the humans now, being able to live to a thousand years was already very rare.

The Hidden Lun space left by ancient practitioners was something present day practitioners longed for, who knew what kind of weird items could be in there. The temptation of these Hidden Lun Spaces was so great that practitioners would stake lives, resulting in massacres.

Even with the enormous strength the old man Lei Bao had, he did not dare to come alone and instead invited his strong friends, coming alone was definitely seeking death.

Upon finding an item of worth, one would be surrounded by countless high leveled practitioners, this was something Lei Bao knew clearly, he had once thought that with his strength he would be able to go solo, but was eventually beaten black and blue, if it weren't for his strength and that the Lightning Lun attribute was suited for large scale battles, he would have been doomed.

Quickly, Yan Wu returned, he reported, “A group of small fellows, the strongest of them are only experts with 3 True ring bodies, hehe, are they joking, I bet if they came closer, someone would take care of them.”

Lei Bao laughed, “There's nothing weird, I bet they don't even know the cruelty present in the process of obtaining an ancient Hidden Lun space, it's good for them to learn.” He said enjoying the misfortune of the other team.

XinFeng could not image how they could obtain the Hidden Lun space, it was merely an image in the sky with a length of roughly 10 kilometers, according to everyone's discussion he found out that the sign of that extent could already prove that this Hidden Lun space was not bad and was extremely large, something no one had seen before.

As they got closer, their excitement grew, even Lei Bao had an elated

expression.

—

## Chapter 4: The Best Spot (2)

XinFeng had already reached the place below the large image. He could now tell that this image is indeed projected through light, but as for how it was projected and where was its physical body, he did not know, he still could not see it clearly and could only see a large amount of colored rays together.

Lei Bao thought for a while before speaking, "You guys done calculating?"

In an instant, Tai Popo replied, "A hundred meters forward....would be the best location."

Gulu laughed, "Don't ask me, I don't know how to calculate that."

Tai Lang spoke, "That's roughly it, though mine is a bit to the south."

XinFeng asked curiously, "Great Grandma Dan, what are they calculating?"

An Yadan replied, "They're calculating the best spot to enter from, if we monopolize that place, hehe, then we will be the biggest target, there were probably be killing, let's just see if those that come.....are stronger than us, Xixi, if not we will be the ones benefitting the most from this."

Quickly, Lei Bao and Tai Lang confirmed the best spot.

Tai Lang commanded, "Immediately occupy this space, no matter who comes, they must be kicked out!"

Lei Bao beckoned, "Feng, come here." he needed to protect XinFeng, the reason behind allowing him to come is to let him experience more. XinFeng knew Lei Bao's intentions, with such an elder's support, he's incomparable to other practitioners, he could receive more resources, experience and see all kinds of things, these were the things essential to his growth.

The confirmed location was a medium sized sand dune. Under Tai Lang's instructions, they quickly surrounded it with their Sand Tuo beasts, those that dared to enter this area would be swiftly disposed of.

Tai Lang had led his to men pitch a large tent, this tent was also umbrella shaped and spacious, if the need arises, there was also thick curtains that could be hung down from the sides for blocking the blowing sand, on the ground was thick carpets that covered the boiling hot sand on the ground.

XinFeng did not use his Ring Armor anymore, roughly half an hour after pitching the tent, the inside had already cooled down, of course, the temperature was still about forty degrees, but it was much better than the seventy degrees present outside.

The scorching temperature had caused XinFeng to feel fatigued, picking up his waterskin, he swallowed a mouthful before smiling bitterly, "Even the water is hot."

Tai Popo did not speak, reaching her hand out, she took Xinfeng's water skin and touched it multiple times before returning it to XinFeng.

XinFeng noticed shockingly that the water in the waterskin had become cold, as if it had been refrigerated just moments ago. He could not help but gulp it down and vigorously sigh a cold breath, "Thank you, Tai Popo"

Tai Popo revealed a small smile and nodded without speaking.

These experts treated XinFeng kindly, of course it was because of their relationship with the old man Lei Bao, but it was also because of the fact that he had achieved the level of a ten thousand Lun master at such a young age and that he had such talent. They were all experienced people and did not mind treating XinFeng well, this could also be considered as a sort of investment.

An Yadan pouted before flicking her wrists and actually bringing out a bucket of ice, "Put it beside you, it'll be comfortable."

XinFeng took out a large waterskin and placed the ice cubes into its opening, after a while, he poured a cup of ice water for everyone. Passing a cup to Tai Lang, he asked, "Grandpa Tai Lang, how long must we wait?"

Tai Lang laughed, "I don't know either, perhaps two days, perhaps a month. We must wait till the power binding the Hidden Lun space

disappears, only then will we have the chance to enter, let's just wait."

XinFeng asked, "If we don't enter now....the amount of people coming will keep increasing, this place will really become a battlefield, will we be able to fight them all?" He wasn't stupid, of course he knew this opening was the best location and also the target of all.

Lei Bao spoke, "Feng, don't worry, for this news to spread, it'll take at least one to three years, hehe, after all we are closer. Those experts that rush here are just small groups, we have enough strength here, just that.....even if we are strong, we also need to rip open the opening of the Hidden Lun space."

Tai Lang laughed, "You can learn through looking, it'll bear great benefits to your practicing."

XinFeng nodded, "Alright, Grandpa, be careful." Actually what he wanted most in this world was a peaceful life without so much conflict, but after seeing the brutality of this world, he forced himself to become strong.

Tai Lang assigned assignments for everyone, even XinFeng had his own, there wasn't any exceptions. Jin Da Pang's was the easiest, he had to take care of the food everyone needed. Everyone agreed to this as this fatty's food was the best, those that ate his food all had a good impression of it.

XinFeng had received one of the better time slots as a watchman which was the time between sunset and midnight.

Jin Da Pang enjoyed bringing XinFeng a box of food that he had cooked and sitting next to him, speaking occasionally as they watched the setting sun and the distant wavering human silhouettes.

After so many nights, not a single group of practitioners fought for this location, they would always see them walking back and forth before leaving.

Jin Da Pang watched the wavering silhouettes and laughed, "How weird, why don't they come?"

XinFeng said, "That's right, I don't understand either, in the past few

days, at least seven groups walked pass, why didn't they stop and fight for this location...."

Yan Wu walked over and said, "You know the reason? Hehe, I know why."

Jin Da Pang asked curiously, "What is it?"

Yan Wu answered, "It's a simple answer...." A sneer appeared on his face, "It's because they don't know how to calculate and don't know this is the best place."

XinFeng replied, "So that's how it is, then....if a group comes over for a fight, it means they have an expert among them, or one that knows how to calculate."

Yan Wu was a bit shocked, he laughed, "Not bad, Feng, you're a fast thinker!"

Jin Da Pang forcefully slapped his thigh, "So that's it, no wonder they left after seeing us, they didn't know. According to XinFeng, if they could calculate the best location, then this place won't be as peaceful as it is now."

XinFeng spoke, "Hehe, at that moment....we would be able to see a high leveled fight." He was curious, he had already experienced a good amount of fights, but the bouts of True masters were something he hadn't seen yet. He was actually extremely curious to see the fights of the true experts in this world.

Jin Da Pang vigorously nodded his head, not even he had seen one, at most he saw low leveled practitioners fight Barbarians, or the fights of amateur practitioners, the high leveled fights was something he wished to see, this was beneficial to his practicing and also his future fights.

Yan Wu laughed, "You don't understand, the fights of low leveled practitioners are much more brutal, the battles of high leveled practitioners like True Masters aren't that cruel."

XinFeng spoke, "How is that possible, I think that the fights of True masters are much exciting."

Yan Wu replied, "If it's according to excitement, of course it's incomparable to amateur practitioners, it is much flashier but that doesn't affect the brutality."

XinFeng thought for a while, "En, perhaps after I see it, I'll understand."

Yan Wu replied, "After seeing more, you'll understand, it'll also bring benefits to your future growth since you'll understand which areas are essential and which aren't, hehe, many practitioners don't have the chance to see experts fight in their whole lives."

XinFeng laughed, "I guess, this time I'll definitely be able to see the fights between experts."

It was very peaceful at this moment, but there was a gust of wind which made XinFeng feel oppressed, the sky had completely darkened. Jin Da Lang laughed, "Hurry and eat."

XinFeng opened the lunch box filled with meat and took bread from Jin Da Pang, he ate with large bites and could not help but praise Jin Da Pang's cooking skills, it was delicious. Actually, XinFeng was also a not bad cook, but compared to Jin Da Pang, he was lacking.

Eating vigorously, he quickly finished the bread and meat, wiping his mouth, XinFeng praised, "Da Pang, with you on our side, we'll definitely never have to worry about food, hehe."

Jin Da Pang laughed, "Other than practicing, my biggest hobby is eating, as a living person.....to be able to eat all of the delicacies in the world, this life is worth it."

XinFeng said jokingly, "O, so if that's so, your purpose behind practicing is to find delicacies?"

Jin Da Pang nodded seriously, "After practicing, it'll be easier to earn money, also, if I can reach the level of a True Master, my lifespan will increase, like that I'll be able to eat more delicacies, isn't that so?"

Yan Wu was frightened by his ambition, he spoke, "So practicing is just for eating?"

Jin Da Pang replied naturally, "Of course!"

XinFeng and Yan Wu were momentarily stunned, this fellow was a rare weirdo that actually had such thinking.

.....

The next morning, XinFeng walked out of the tent. It wasn't hot in the mornings in the desert, it was even slightly chilly, but with the rise of the sun, the desert would become a large oven.

After midnight was Tai Lang's shift, as well was daybreak. In the afternoon it was Lei Bao's shift.

A far away group was headed their way, Lei Bao, Tai Lang, Yan Wu and everyone else waited silently, they all understood that someone would come one day. XinFeng stared at the faraway men while Jin Da Pang stayed beside him, "I hope they're just passing by."

# Chapter 5: Thousand Lightning Strikes (1)

This size of this group was rather large, their numbers amounting to around two hundred, while Tai Lang's group had only 30 something at most, their numbers differed greatly, the reason was that Tai Lang, Lei Bao, Gulu and Yan Wu were all experts, numbers did not mean that they were powerful.

Tai Lang suddenly shouted, "They're men of the Scorpion alliance!" He did not expect so many men from the Scorpion alliance.

The Scorpion alliance was one of the big three powers in Xi Rong land, they were rather strong, giving Tai Lang misgivings.

Lei Bao asked, "Scorpion alliance?" He did not understand the distribution of influence in Xi Rong land.

Tai Lang replied, "Scorpion alliance, they are one of the big three in Xi Rong land, they're rather powerful, but we don't know who came this time." He was also an influential force in Xi Rong land, however he wasn't as influential as the Scorpion alliance, with the experts, Lei Bao and Gulu before him, their strength wasn't lacking, they were even more powerful, but Tai Lang was still worried.

Lei Bao the old man and his friends were outsiders, not one of Tai Lang's men. After they had completed their missions, they would definitely leave, at that moment Tai Lang would not be as powerful as the Scorpion alliance, this was the reason behind his worrying.

Gulu laughed, "Scorpion Alliance, one of the big three influences in Xi Rong land, actually they're not much, hehe, if they anger me, I'll make them pay." His temper was also not great, only, his temper was incomparable to the past Lei Bao's.

Tai Lang sighed and did not speak.

The old man Lei Bao patted his arm understandingly, "Don't worry, we won't pick a fight, however if it was them who irked us.....I recommend that you remove them, once we eliminate the higher ups of the Scorpion

Alliance, no one would be able to threaten you.”

Yan Wu laughed, “That’s right, I like this solution.”

XinFeng was speechless, this group of old men were all ruthless. None of them were capable of staying out of fights.

Tai Lang seemed to know much about the Scorpion Alliance, he spoke, “Eliminating the higher ups of the Scorpion alliance....with all of us, that is certainly possible. The only problem is that the higher ups are definitely not all here. The strongest would definitely stay within the Scorpion alliance to guard it, the higher ups present here are probably limited, but they probably invited other experts to participate.”

The old man Lei Bao laughed, “This isn’t like Tai Lang, when did you start fearing?”

Tai Lang laughed bitterly, “In the past.....I only had to take care of myself, now, I have a group of people, there are too many things for me to worry about, I can’t be as willful as I was in the past.”

Yan Wu praised, “That’s right, the most troublesome thing is to take care of others, hey hey, that’s like my father, he rarely leaves the house and would hide in the Sect to practice while worrying about this and that, he’s not happy at all, I can’t be bothered to stay in the Sect myself and came out to have fun.”

The men of the Scorpion alliance were led by two experts with 5 True Ring bodies. In Xi Rong land, an expert with 5 True Ring bodies were enough to support a large sect, the Scorpion alliance had sent the both of them out for this, that’s more than enough, there’s even seven true masters, though they don’t have 5 True Ring bodies, they at least had 2 or 3, their power was extremely strong.

Tai Lang sighed yet again, “Old brother, let us go and welcome them!”

Lei Bao grabbed him and spoke, “No need, they will come!” He was slightly unsatisfied with Tai Lang’s attitude, he felt that Tai Lang was weak.

Gulu spoke, “Old brother Tai Lang, you go back first, we’ll handle this!”

Tai Lang's expression stiffened, "It's alright, I'll handle it, don't worry!" He knew his attitude had displeased his companions, after thinking, he knew that he shouldn't be weak at this moment, if he did, then it would mean that he would lose many of his rights and interests.

That group stopped at a distance of a hundred meters. Among them came 5 men with 2 leading the way, they were the experts of the Scorpion alliance with 5 True Ring bodies. Those with 5 True Ring bodies were called True Treasure Yin masters, a step away from obtaining Yin Li. Though there was only a level difference between True Yin masters with True Ring bodies, it was a large threshold, with True Yin bodies, their power would reach an entirely different level, right now they only had Lun Yin Li, a level difference from Yin Li.

Lun Yin Li was a level higher than Lun Li and a level lower than Yin Li, once one had reached the level of a True Yin master, the Lun Yin Li in their bodies will become Yin Li, increasing their strength by a large amount.

Tai Lang took a step forward, "Delon, Ai Sha Bo! This is my land!"

(德隆= De Long 艾舍波= Ai Sha Bo.)

Lei Bao shook his head mentally, he did not understand why Tai Lang was so fearful of the opponent, this sentence he spoke carried the aura of weakness.

Gulu was also unsatisfied, he immediately walked forward, "Stop, this place.....is not for you to enter!" As he spoke, he emitted an overwhelming surge of his imposing aura towards them, using his strength of a True master with True Ring bodies to threaten them.

Delon and Ai Sha Bo's faces both changed slightly, originally they assumed this group to be weak and were planning to chase them away, but they didn't expect it to actually be Tai Lang. Although Stellar Night Fortress wasn't capable to comparing to Scorpion alliance, it wasn't a pushover either, before the leader who wanted to crush them could step forward and speak, a True Yin master with True Ring bodies appeared.

XinFeng hid behind the group, the fights between True masters did not

have any relations to him, he was only watching for fun.

Delon was a short man with an extremely sturdy build. His shoulders and body were very wide, almost as wide as he was tall, it gave people the feeling that he was square shaped. With a large head full of white hair, a face of yellow skin, an enormous mouth full of large teeth, it gave others an outrageous impression.

However Ai Sha Bo was an extremely handsome Middle Aged men, his image was attractive, no matter his looks or his clothing, it was impossible to pick on, he also had the aura of a noble, a peaceful smile present on his face.

Not knowing why, XinFeng did not have a good impression of Ai Sha Po, but actually had a slightly better feeling towards Delon. He could not help but criticize himself, it was probably because he was handsome, though he may be old, it still made others jealous and envious.

Ai Sha Bo stopped in his tracks, he did not expect there to be such a powerful expert within the opponents and knew that it would be hard to monopolize this area, though he was still unsatisfied and could not help but begrudge silently, he had always thought that the Scorpion alliance had the most advantageous position which was supposedly incomparable by other forces, he spoke, "Tai Lang, long time no see!" He started to curry favor.

Tai Lang replied, "Ai Sha Bo, long time no see."

Delon continued walking towards them.

Gulu was instantly infuriated, he spoke with a deep voice, "Bastard, are you taking my words as shit? I said fucking stay there!"

Delon's eyes widened as he replied, "Is this your house? What does my walking.....concern you?!" He was also accustomed to rudeness, adding the fact that there were also expert with True Ring bodies in the Scorpion alliance, he wasn't too afraid.

Gulu was not a man from Xi Rong land, which caused him to have no concept of the Scorpion alliance, of course he did not fear him, adding the

fact that he didn't have a good temper, he immediately pounced after hearing Delon's words as he rebuked, "With your fucking small stature, how dare you speak like that to your seniors! Fuck you!"

Delon had his wish granted, he only wanted to see the strength of the opponent, he had always been rebellious and could not be suppressed by Gulu's aura.

Hong!

The two men exchanged a hard blow.

A flash of golden light and red light caused a glaring sight, in an instant, Delon was sent flying and landed head-first on a Sand Dune, Gulu pounced yet again.

"Stop!"

Ai Sha Bo shouted loudly.

"Stop!"

Tai Lang also shouted.

Not only did Gulu reveal an unsatisfied expression, even the old man Lei Bao furrowed his brow.

Tai Lang quickly spoke, "Old brother Gulu, slow your hands for a moment and let me speak a few sentences, is that alright?"

Gulu rolled his eyes, "Alright, you speak first, I'll make him pay later!" With a slap he flipped Delon, although he did not kill the opponent, it made him feel satisfied and improved his mood, only then did he temporarily stop.

Delon climbed out of the Sand dune, with only that one attack, he was sent a meter below the sand dune, Gulu had been merciful knowing this fellow's identity, he also did not want to kill him and anger a large influential power, it would be troublesome, not scary. One must also know that he did not bear great hatred towards the opponent, it wasn't worth killing him, he knew that much.

Lei Bao could not help but laugh, "The temper I have now is much

better than yours, hehe.” If it was in the past, he definitely would be the one to attack first.

Delon noticed that the opponent did not care about his own influence and became wary, a clever man knew not to withstand injustice voluntarily and did not walk forward again to provoke him, if he were to do it again then it wouldn't be investigating, it would be courting death. All practitioners had their own pride, to be provoked yet again would be unbearable, thus so upon climbing out of the sand dune, he stopped there which signified he had surrendered.

Ai Sha Bo laughed bitterly, “Tai Lang, don't be mistaken, we were just passing through.” Immediately changing his words, after all, that was the only thing he could do.

The old man Lei Bao ‘Hmph’ed mentally, if it wasn't for Gulu's slap, the opponent's men would have probably attacked, he was accustomed to the brutal conflicts among practitioners, the intelligent knew when to stop.

Tai Lang also understood why the opponent would speak such words, he did not wish to expose them and laughed, “Hehe, what a misunderstanding.”

The two men cackled a few sentences of useless chatter and Ai Sha Bo immediately turned to leave, calling Delon, the two of them speedily returned to the group and left.

XinFeng was a bit disappointed, “They didn't fight, how disappointing.”

Yan Wu could not help but smile, “If they were to do that then the ending would be undesirable.”

XinFeng asked curiously, “But we do not need to fear, isn't that so?”

Yan Wu replied, “Of course, however, it would be best to not fight as we need to conserve our energy and wait until the Hidden Lun space opens, haha, at that moment you'll see what the thing called battle is.”

XinFeng spoke, “Who knows if others will come?”

## Chapter 6: Thousand Lightning Strikes (2)

Lei Bao the old man squinted his eyes as he watched the men leave, after a distance of roughly a hundred meters, they stopped near one of the other sand dunes, it was obvious that they knew about how Tai Lang had monopolized the best location and wanted to be as close as possible.

Gulu was enraged, "I'll go get rid of them!"

Lei Bao replied, "No need, hehe, you too know that once the Hidden Lun space descends, their location will be unsafe."

Actually Gulu did not know that as he did not know how to calculate, it wasn't like the more powerful you are, the more you know, he said, "If it's like this.....alright, as long as they don't annoy me. When the Hidden Lun space opens later, if I see that Delon guy, I'll make him regret it." He didn't mind waiting to kill his opponents, either way he had already offended him. Of course, if he doesn't see him at that time he'll let it go and not go out of his way to find Delon.

Quickly, more teams came, but ended up not coming too close. It was not that they couldn't calculate, it was because they saw even the men of the Scorpion alliance fearing to occupy that area and came here understandingly without picking a fight. This was something Tai Lang did not expect.

The anticipated fight did not happen to XinFeng's regret, though he did not dwell on that matter as he would be able to raise his level after this period of training.

This place wasn't good for practicing, the best location for him to practice was a place with thunderstorms while this place only had brutal heat, however XinFeng had an advantage in practicing that others do not have, it was the piece of lightning stamp in his body, it provided many benefits, which was the advantage of having an expert teaching you.

The existence of the Lightning stamp had eased the process of leveling for XinFeng, he could absorb copious amounts of strength from it and transform it into his own Lightning Lunli, slowly increasing the amount

of Lunli he has. Gradually the Lunli in his body was reaching the critical point, upon reaching a hundred thousand Lightning Lunlis, he would become a Milun master.

With the strength of a Milun master, one can already travel the world.

XinFeng wasn't hurried in the slightest and continued to follow the old man Lei Bao's teachings, growing stronger slowly, building his steady foundation.

With time, the image in the sky gradually disappeared, at this time, people would be incapable of calculating the best entrance, however, this did not affect experts that already came, if they knew how to calculate, they would already have understood where the best location was. All of them eyed Tai Lang's camp, but only because of the power present, they did not dare to chase them away.

Other than taking his shifts, XinFeng spent all his time learning and practicing, there were a large amount of true master experts here, no matter if it was Hong Chen who had one True ring body or Gulu who had a True Ring Body, they were all his teachers. No one refused to teach XinFeng either, one reason being that he was the grandson of Lei Bao, the other being that he was a true genius, no matter what he was learning, he would be able to master them all, thus all these people were willing to teach him.

These were very rare chances, XinFeng did not know when he would be able to find another chance like this, which was why he did not dare to slack and used every day to the max. Even if he could not use this skill, he would still learn it. Skills he did not need now did not mean it was useless, this was something he learned from his past life, even if he only knew the basics, it was also better than knowing nothing.

The waiting duration this time was very long, no one expected that it would amount to 3 months, only then did the image in the sky slowly disappear, those under it was already unable to see it whereas those that stood from afar could only see a faint shadow, everyone knew the Hidden Lun space was about to descend.

At this period of time, food was already scarce, other than leaving some food for Tai Lang's team, they already started to kill the Sand Tuo Beasts for food a month ago. Some small teams even had to retreat before they starved to death in the Thousand Sand Barrier.

While some people occasionally attempted to enter Tai Lang's land, some tried to bargain, some tried to forcefully enter. Tai Lang and the group of experts gave them no chance and stopped them all outside, they had designated an area of roughly a few hundred meter radius and chased anyone who came into it away, if anyone came multiple times, they would kill them without hesitation, within these few days, they had killed 7-8 men.

The teams outside of their land became impatient, even though they knew within Tai Lang's land was a large amount of True master experts, they continued to charge in without knowing the fear of death.

XinFeng stayed at the sides of the land to watch battles, pity that there weren't battles of true experts, all of them were only probing attacks.

Today, Delon and Ai Shebo came together to Tai Lang's land, but were blocked outside by Gulu. Ai Shebo shouted, "Tai Lang! Tai Lang! Come out for a bit, we have something to discuss with you!"

As Tai Lang was a famous person, he could not hide in the land and could only come out, with Lei Bao and the others following him.

XinFeng spoke softly, "Pang, they can't wait anymore."

Jin Da Pang had become skinny recently, although food was sufficient, it was just enough. Adding the heat, it made him lose weight. He smiled bitterly, "Time is almost up, of course they're impatient, if they wait any longer, there will probably be nothing for them, so upon hearing that it's about to descend, they've decided that only the calculated location is the safest.

The old man Lei Bao spoke, "Tai Lang, remember, no matter what they say, you cannot agree. Once we open a weakness, others will charge over and we won't be able to hold our fort."

Tai Lang had no choice either, he nodded, "Alright." He cannot agree, if he were to relent, he knew it would be irreconcilable. They were not afraid of the opponent but the practitioners coming to Thousand Sand Barrier were increasing, there were even lone adventurers. All of them were battle experts, once all of these people charged together, they may not be able to monopolize this place anymore. Time was almost up, if something were to happen now, they would lose everything.

Ai Shebo spoke, "Tai Lang, we have something to discuss with you."

Tai Lang walked to the two of them, he asked, "What is it? Speak, I have something to tell you, this land....I'm not the biggest here." After thinking for quite a bit, he found that this is the only way to decrease the responsibility on his shoulders.

Delon stared at Tai Lang as he spoke with a deep voice, "Tai Lang, we all know each other, we may not be close, but we are all practitioners of Xi Rong Land!"

Ai Sha Bo spoke, "Give us Scorpion Alliance 2 positions, we will want 2 positions!"

Delon continued, "Just give us 2 positions, us Scorpion Alliance will owe you a favor! The two of us will also owe you a favor!"

There were many practitioners in the distance, some even were high leveled practitioners, all of them watched from afar, even if Delon and Ai Sha Bo's voices were soft, they still could hear clearly.

Tai Lang glanced at the distant groups, his heart aching, if he were to reject them, he would have offended the Scorpion Alliance, but if he did, he knew clearly that all of the true master level experts would request the same thing and he could not accept all of them.

"I already said, in this land I'm not the biggest!"

Lei Bao could not help but shake his head, he did not know that Tai Lang spoke so ambiguously like that in the past.

Ai Sha Bo spoke, "Then who's in charge? Who's the biggest?"

The old man Lei Bao had to step forward, he spoke lightly, "I'm in charge, my words are the biggest, little kid, there's no positions here for you!" He rejected him without relenting.

Delon was enraged, "Who are you? What are you even counted as!?"

The old man Lei Bao smiled faintly, "Little kid, who I am isn't important, the most important thing is.....I can kill you!"

A flash silver light rose to the skies, XinFeng could tell with a glance that Grandpa was condensing a new Lightning stamp.

In an instant, that lightning stamp gave off an eye piercing light, Lei Bao shouted, "A thousand lightning strikes! Destroy!"

Hong! Hong! Hong.....

A large cluster of thunder sounded, it sounded as if countless gigantic drums, an earth shattering shock and countless lightning strikes as thick as buckets madly descended, under Lei Bao's guidance, it suddenly plummeted down.

Delon and Ai Shebo were scared senseless, the two of them couldn't even react. The attack speed of the lightning bolts were second only to light attributed practitioners, but its power surpassed light attributed practitioners.

Ai She Bo escaped to the outer areas madly.

Delon was unable to escape in time and could only release his Lun Yinli protection as countless lightning bolts landed on his body.

Tai Lang wanted to open his mouth and speak but stopped, he knew that if he tried to stop him, he would invite malice from his friends, he could only feel a headache as he watched the old man Lei Bao attack.

An instant kill.

Delon was reduced into ashes.

Ai She Bo managed to escape quick enough and was barely able to keep his life, but it was mostly because the old man Lei Bao was aiming at Delon, who would have thought that a treasure Lun Yin True master with

5 True Ring bodies was actually incapable of blocking one attack of Lei Bao, this was too scary.

After instantly killing Delon, the old man Lei Bao's attention was shifted to Ai She Bo, the lightning stamp giving off an eye piercing glow.

Ai She Bo escaped extremely quickly, he had already escaped to his team and was shouting loudly, "Run!" However he was still not faster than the lightning bolts.

To shock the surrounding people, the old man Lei Bao used his full power to activate his lightning stamp, once again activating a thousand lightning strikes.

XinFeng's mouth was open as he watched the dancing strikes, he was really terrified. He never expected his grandpa's lightning stamp to be so abnormal, he was counted to have the basic knowledge of a practitioner and he knew that with only these 2 attacks grandpa did not have only 1 True ring body, it was highly possible that he had 7 or even more.

A thousand bolts madly descended!

# Chapter 7: Heavy Casualties (1)

Ai She Bo didn't stop, as Delon was struck to ashes, he already knew that he wouldn't be able to beat that unknown old man. That was why he threw out one of his Yin armor, one of his life saving Yin armors, a fortification earth attributed Yin armor, a Lun Qi that came from an ancient hidden Lun space that cost him a large fortune. He was instantly covered by a bundle of golden light.

At that moment, a thousand lightning bolts descended, the entire crowd in the plains took out their best defensive skill and attempted to block the descending lightning bolts.

There were many teams, all of them looked on with shock at the sight of countless lightning bolts enveloping the people of the Scorpion alliance.

The sound of thunder overlapped each other as the ground shook, the originally scorched earth looked as though it was boiling while dust rose from the ground.

As the dust scattered, the sound of thunder disappeared, revealing an open land where the entire Scorpion alliance as well as entire sand dunes disappeared, they were struck into nothing.

However Ai She Bo was able to escape, the Lun Qi he had thrown out saved his life. That earth attributed Yin armor had disappeared upon blocking the Thousand Lightning Strikes, but it had indeed protect him from Lei Bao's terrifying attack.

The old man Lei Bao watched as Ai She Bo escaped, he was already incapable of attacking a third time. After continuously attacking twice, he had already sacrificed a large portion of his power, this was his ultimate attack. It can be said that he had attacked without caring about the consequences to frighten the surrounding people, he could not help but use thunder to deter those idiotic groups from making their moves.

The side of Ai She Bo's body had been scorched, he frantically escaped outwards, not daring to stop in the slightest as he thirsted for vengeance

madly in his heart.

The lightning stamp descended from the skies and immediately entered Lei Bao's head.

The old man Lei Bao's complexion was slightly paled, he spoke with a deep voice, "Does anyone else want to monopolize our land? All of you fucking scram!"

The surrounding crowds were like rats who had their burrow destroyed, madly scurrying outwards, none of them dared to stay, the previous sight was far too terrifying. None of them could block attacks from the old man's strength, staying meant that they were courting death.

And in a few minutes, the entire land was deserted with not a single human silhouette in sight.

Jin Da Pang muttered to himself, "Impressive, truly fucking impressive! Ai, I didn't expect the old grandpa to be so strong.....how scary!"

Not only were Jin Da Pang and XinFeng scared, even Tai Lang and the others were. Gulu had a strange expression, he only found out now that the old man was stronger than himself. Yan Wu had a bitter smile, Tai Popo still had a cold expression, but her slightly trembling hand gave away her shock and An Yadan's mouth was open, she had always knew that Lei Bao was a unfathomable fellow, but this time he had gone all out, it was actually so scary, it gave her great shock.

Tai Lang smiled bitterly while shaking his head, he knew that his hesitation had invited the disdain of the old man Lei Bao. At that moment he understood that he could not be as hesitant as he was in the past, he had important things to him as well as great responsibility, he could not act according to his own pleasure anymore.

The old man Lei Bao turned to leave, he had returned under one of the tents in the middle of the land and started to recover, he did not use too much of his YinLi but his Lightning Li had been decreased by an great amount, he needed to recover his Lightning Li as it was his killing weapon.

Gulu glanced at Tai Lang once before also leaving.

Tai Lang smiled bitterly once more, he knew Gulu was also dissatisfied at his weakness which forced the old man's hand to scare the opponents, revealing their biggest trump card.

After the old man Lei Bao's mad massacre, there wasn't a single influential force willing to irk them, for a consecutive three days there wasn't even a human shadow present in the land. Those men of small influential forces that originally camped at the sand dunes nearby disappeared after the massacre.

The sky was already devoid of all traces of the Hidden Lun space and the land was already empty of all Sand Tuo beasts, there was still a small amount of food that could last about a dozen more days if everyone was conservative. This place was different from the others, it was impossible to find food and the crowd was currently anxiously waiting for the descent of the Hidden Lun space.

XinFeng had also stopped learning from the others, staying by the old man Lei Bao's side for the past two days.

The old man Lei Bao, Tai Lang, Yan Wu, An Yadan, Tai Popo, Qi Xuan, Du Hong Chen and the rest along with Jin Da pang, XinFeng and Yan were all gathered, the experts Tai Lang brought were also there, they knew, that the Hidden Lun space was about to descend.

At this moment, an underling reported the appearance of Human shadows in the surroundings once more.

Tai Lang instructed, "Ignore them."

Gulu continued indifferently, "They won't dare to close in."

Lei Bao suddenly waved his out reached hand, "Don't speak, listen closely!"

With a series of slight movement and soft 'KaCha' sounds, it was extremely silent. The old man Lei Bao shouted, "Remove the tents!" Tai Lang's underlings immediately and swiftly removed them and without the shade the tents provided, the sunlight immediately shot down, causing

bright light to envelope the eyes of the crowd along with heat which heated their bodies, and at that moment, beads of sweat dripped down from XinFeng's forehead. He immediately activated his Mi Ring armor, he had become a Mi Lun master just two days ago.

After becoming a Milun master, the old man Lei Bao was extremely satisfied and was relieved. One must know that upon the descent of a Hidden Lun space, a thousand Lun master was considered too weak and had to worry constantly about how to protect himself, while a Milun master was different, they were at least capable of protecting themselves as well as fighting for treasures of the Hidden Lun Space.

According to the instructions of the old man Lei Bao, the crowd stood together, these sort of calculations were very precise, the old man Lei Bao and the others capable of calculating had confirmed after multiple attempts that this was indeed the best entrance.

The tremors gradually became larger while the surrounding people increased, they knew that the man in Tai Lang's land could not force them away at this moment.

Multitudes of bird cries were heard, the entire earth was shaking as discomfort grew amongst those present.

As Sand Dunes covered the ground, with the increased shaking, they collapsed little by little, there were also some enormous Sand Dunes starting to collapse, the old man Lei Bao bellowed, "Everyone keep steady, don't fall!"

The crowd linked their hands, forming a circle as they waited for the opening of the Ancient Hidden Lun space, their faces all revealing an excited expression.

Hong!

A sand dune not far away collapsed, those standing atop it was immediately buried, luckily they were all practitioners, normal humans would basically be killed by this, the people that originally stood on top of it climbed out awkwardly.

With the collapse of sand dunes one after another, even the height of the sand dune the old man Lei Bao stood on slowly decreased.

The tremors increased and everyone was extremely excited yet nervous, who knew what would happen. The calmest ones were still those True master experts, after all they've experienced many things and were powerful, they had a great variety of experience when it came to changes.

The sky suddenly darkened, the originally bright, scorching sunlight also dimmed.

XinFeng raised his head and could not help but exclaim, "Fuck, what's this?"

In the sky was a black hole that increased in size gradually as a surge of heavy wind blew towards them.

The old man Lei Bao shouted loudly to Gulu, "I'll be outside, you stay inside!"

Gulu replied, "Okay!" A crimson light appeared at the top of his head and flew out, it was his Fire stamp which instantly protected the crowd with a red light.

The old man Lei Bao also sent his Lightning stamp outside and similarly sent out countless electric charges, protecting the crowd.

With two layers of protection, they protected the crowd from the rotating winds.

That wind was extremely strange, not only did it give off sharp whizzing sounds, it also gave off black streaks of shadows riding the wind similar to snakes, quickly, a shocking sight appeared before the crowd. The surround practitioners would be torn into shreds upon coming into contact with the black shadows, they couldn't even escape. At that moment, among the cacophony of whizzing, rose a torrent of tragic screams.

Jin Da Pang mumbled, aghast, "My god.....what's this thing, it's so powerful!"

Streaks of black shadows that were originally thin gathered together as the black hole in the sky increased in size, the madly escaping groups were attacked relentlessly, at every moment there was someone being turned into masses of blood soaked meat that disappeared with the mad wind, all sorts of curses, anguished cries terrified those alive, wanting to escape now was practically impossible.

The strange thing was that the black shadows of the mad wind almost never came to Tai Lang's land, those small amounts that came were all blocked by the Lightning and Fire stamps of Gulu and Lei Bao.

Quickly, XinFeng noticed that although the threat of these black shadows were great, but for True masters, the damage is rather limited, they could at least block large portions of the attack, those with at least 2 Ring bodies would not die in this wind.

The old man spoke, "This isn't just anything, this is the Black Turbulence, those that aren't True master will be shredded into pieces, it's not something normal practitioners can block. I also didn't expect it to appear, it seems....this ancient Hidden Lun space isn't normal!"

The Black Turbulence was like a large grindstone, grinding those on it into mincemeat.

Originally those outside of Tai Lang's land amounted to a few thousand people there were even Sand Tuo beasts and desert hunting dogs, with the descent of the Black Turbulence and the mad wind, the numbers practically dwindled by half, that black colored turbulence was even radiating a red glow.

Quite a bit of true master experts with 3, 4 or even 5 a True Ring bodies started to charge towards Tai Lang's land as they could tell, only this place is the safest.

If it wasn't for the old man Lei Bao's threatening move, this land would already be attacked, to be able to last till now was because of the old man Lei Bao.

Lightning and Fire stamps could only be condensed by experts with True ring bodies, their attack power was unusual and could block all sorts of

attacks, the old man bellowed, “All of you stay the fuck away, those that attack our land, will be killed!”

## Chapter 8: Heavy Casualties (2)

The experts that already closed onto the land could only leave unsatisfied after hearing the old man Lei Bao's bellow, they were all experts with considerable strength who could block the Black Turbulence for a bit, but they understood that if the old man Lei Bao attacked them, they wouldn't be able to defend themselves.

Suddenly, the Black turbulence gradually thinned, as those present all sighed in relief, streaks of white lightning sparks appeared among the strong winds and in an instant, a dozen practitioners were struck trembling and were sucked into the wind, and as if they were the autumn wind, they started to float.

XinFeng suddenly noticed a large amount of electricity, that surge of power made his heart thump, one must know that he was a person training in electricity with immunity to the dangers of electricity and the ability to absorb the power of electricity. If even he felt greatly threatened, what about the other practitioners.

Lei Bao's expression was a bit strange, he had also felt the power of electricity, but it made him feel extremely weird, he could clearly feel that this power was actually a higher level compared to his. He had never felt this way before, if it weren't for this situation he was in, he would really love to sit down and practice and absorb the lightning here, to see if there would be any changes.

Suddenly, countless lightning strikes shot continuously at the old man Lei Bao's Lightning stamp, and in an instant, a dozen strikes had already landed on the Lightning stamp. As the lightning stamp rested on the sky above the land, the land was covered in a bright light, it was as if the lightning stamp had taken the role of a sun.

Lei Bao was extremely worried, he quickly noticed something wrong, something was changing within his Lightning stamp, he did not know if it was beneficial or not at the moment but he understood that the lightning stamp he had condensed was now different. Luckily the Lightning stamp

was still under his control, if he were too busy he would not be able to take care of it, if anything he could just condense a new one. Ever since he learned to absorb lightning from the skies during storms, condensing a Lightning stamp became an easy task.

Thus so, Lei Bao did not retrieve his Lightning stamp, but instructed it to absorb the incoming lightning bolts.

XinFeng also quietly started to absorb, but the amounts absorbed were very minuscule as this location was not one for practicing, through circulating Lightning Lunli, he absorbed a bit of the electricity present outside. But as he did so, Jin Da Pang and Yan who he had linked his hands with became miserable, the two of them felt their arms becoming numb and their hair standing involuntarily, the two of them did not dare to release their hands and could only ask with a quivering voice, “Feng, what are you doing?”

Yan had also spoke, “You.....I’m numb....”

(Putty: numb=麻麻 it sounds like mother.)

XinFeng asked curiously, “Your mother?”

Yan was shocked, “I’m numb!”

XinFeng replied, “En, What wrong with your mother?”

Yan was going crazy, if it weren’t for their friendship, she would have loved to viciously punch this fellow. She rolled her eyes and spoke again, “You’re numbing me.”

As neither Yan nor Jin Da Pang was immune to the discharged electricity, Yan’s speech was not clear, which caused XinFeng to hear wrongly, he replied, “I didn’t scold you.....”

(Putty: this time he mistook 骂=scold for 麻=Numb since they both sound similar.)

Having enraged Yan, XinFeng was hit with a head butt, she harshly spoke, “Let go!” She couldn’t care anymore, that numbing feeling was driving her crazy.

Bang!

Yan's head smashed against XinFeng's elbow, without given time to protect himself, XinFeng could only let go, he asked, "What's wrong?"

Jin Da Pang reacted and could not help but burst into laughter, "She says she's numb....numb....little Yan, am I right?"

Yan vigorously nodded her head, "Feng is deaf, jumbling my words together.....infuriating!"

Tai Lang spoke with a deep voice, "The two of you....hold your hands together! Bickering even at this time!"

XinFeng obediently offered his hand as he spoke, "Don't worry, I won't numb you anymore!" He kept his lightning Lun Li, although he continued to absorb electricity, he took more care to not torment his companions.

The bolts killed even faster, it was brutal and cruel, when Lightning strikes someone, they are basically reduced to ashes, even scum was rarely left behind. With the raging wind's passing, nothing was left, practitioners died after one another, even the true masters took out their trump cards and madly blocked, not daring to be careless, those that did were already all dead.

Yan was normally silent, but after getting close to her, she wasn't as cold as before. She whispered, "How infuriating....." Her hand reached out to hold XinFeng's, still slightly unsatisfied.

At this moment, those dodging practitioners nearby started to become incapable of blocking, even true masters could not block such a concentrated bolt and started to run. they knew that if they continued, they would really die.

The lightning disappeared abruptly, only a second ago was there flashes of lightning and booms of thunder, a second later, there wasn't a single sound. The black turbulence had also disappeared with the lighting and thunder, similarly abruptly.

The old man Lei Bao and Gulu shouted at the same time, "All of you focus! Careful!"

The black hole had already increased to a thousand meter in size, but it stopped spitting out raging winds, instead countless filaments floated out, those black filament were like descending cotton, falling to the ground in bundles. It was unknown what it was but both Lei Bao and Gulu acted as though their biggest enemy were here, the both of them retrieving their stamps at the same time.

Lei Bao grabbed XinFeng and bellowed, "All of you dodge yourselves, do not let that thing touch you no matter what!"

The entire shield collapsed instantly and Lei Bao dodged nonstop, the floating black filaments similarly descended even in their location, however, they could only move in a certain space.

Luckily the thin filaments were not fast, if they were careful enough, they could still dodge while staying in a fixed position.

XinFeng asked curiously, "Grandpa, can't we dodge this?"

The old man Lei Bao spoke, "It cannot be blocked, whoever tries will die!"

XinFeng asked again, "What's this? Grandpa, how do you know of it?"

Lei Bao grabbed XinFeng, they had already dodged a few bundles of filament consecutively, he replied, "I also don't know what it is, but my instincts say I can't block them!"

Other than the land they were in, the other places were overwhelmed by the filaments, there was still hundreds of other men who survived both the Black Turbulence and the lightning bolts, as for the Sand Dunes, they were all leveled. XinFeng could see clearly both these men fleeing and the filaments descending upon them.

Suddenly one of the Ten thousand masters from Stellar Night Fortress shouted in shock, as he was dodging he collided with one of the bundle of filament and without a second cry, a large portion of his entire body disappeared and he fell to the ground, his blood pouring out. Tai Lang shouted furiously, "All of you be careful as you dodge, if you're fucking careless, then fucking go die!" Everyone placed their full efforts in

dodging.

Hong Chen also grabbed onto Yan as he dodged, only Jin Da Pang didn't have a senior and could only rely on himself, his plump face filled with horror and sweat. He shifted to the right and left as his mouth made incoherent noises, ignored by everyone else.

The land was filled with chaos, everyone was struggling to survive, not daring to slack off in the slightest.

Faraway was desperately escaping people, but this ground was sand, with only a bit of carelessness, their legs would be trapped, wanting to escape swiftly was really too difficult. Those bundles of filament were already closing onto the ground, near the heads of the escaping people.

A cacophony of painful cries were heard, some could not even scream in time and were killed by the strange filaments. Within only a minute those escaping men were reduced to only a few left. Trying to get closer to the ground and further from the falling filaments, using all of their limbs, they ran madly like hunting dogs outwards, but even so, they couldn't escape the Hidden Lun space encased land and died off one by one.

While within Tai Lang's men there were only 7-8 deaths and a few casualties, including Jin Da Pang, who had brushed his hand against one of the bundles of filaments and lost a large piece of meat.

After about five minutes, those descending filaments finally disappeared, the surroundings became silent, other than the people in Tai Lang's land, everyone else was dead, those that weren't in the best locations, basically had no means to survive.

Yan Wu smiled bitterly, "If those people knew that anyone outside of this land would die without exceptions, perhaps they would have risked their lives to monopolize our land!"

Gulu blandly spoke, "That opportunity was gone upon old brother Lei Bao's attack!"

Tai Lang smiled bitterly, he could hear Gulu's displeasure towards him in his words, but he couldn't explain, with a light sigh, he spoke, "Delon

and the Scorpion alliance's team's.....eradication, scared Ai Sha Bo, he must be seeking help at Scorpion alliance.”

The old man Lei Bao acted as nothing had happened, “There isn't something great about that, at most I'll fight a battle with the Scorpiin alliance, I don't believe, they will dare to irk me, this solitary ghost.

The solitary true masters were the most scary, no influential force would be willing to offend such a person, and if they were to desire vengeance, they could resort to any methods.

Tai Lang could only smile bitterly even more, thinking to himself, ‘You're traveling alone, but I have to support a family, if I were like you, I'd be even crazier.”

The old man Lei Bao placed XinFeng down and looked above, after a moment of silence, his face became serious.

Gulu Lao raised his head and spoke, “Jesus, what kind of a Hidden Lun space is this.....it actually has so many defenses...this man in the past, must have been an extraordinary expert?”

The old man Lei Bao spoke softly, “Gulu, we need more actions, not words.....they still don't understand, this trip.....who knows if it'll be beneficial.”

XinFeng could hear everything but he didn't ask, he already had a guess, this ancient Hidden Lun space was perhaps a priceless treasure, even Lei Bao was unsure. He brought him to increase his experiences with this treasure hunt, but now it seems that this Hidden Lun space is something extraordinary.

If it was a rare hidden Lun space, then it would explain their serious expressions. Even if they obtained this treasure, to them, this was big trouble.

As it would attract those top leveled or legendary figures.

# Chapter 9: Descend of the Space (1)

Even with the old man Lei Bao's experience, he still couldn't identify the descending Hidden Lun space, the era it belong to, the expert that left this behind, he didn't know, but one thing everyone knew was that this hidden Lun space was definitely extraordinary.

Gulu spoke softly, "It really is a bundle of surprises, who knows how this will end?" The stronger one was, the more knowledgeable and wary one is.

The old man Lei Bao also spoke softly, "Ignore those, since we're here, we won't give up."

Gulu suddenly laughed, "We're all traveling alone, once we receive the benefits, we could leave. This world is so vast, who would bring us trouble?"

XinFeng stayed at Lei Bao's side, the two of them spoke without concealing, as he heard their conversation, he became worried. This was his first time seeing such a scary treasure hunt, if they hadn't monopolized this position, then perhaps only Lei Bao and Gulu would have survived. From the situation outside one could already tell, among a thousand men, none survived, not even one escaped.

Even if they monopolized the best location, they also lost quite a bit of people. This Hidden Lun space was too perverted.

The color black started fluctuating in the skies, the old man suddenly grabbed XinFeng, and at that moment, the sky seemed to have crumbled, darkness suddenly enveloping their eyes along with a sudden explosive sound.

The Hidden Lun space had finally descended.

Light radiated from the old man Lei Bao, while XinFeng could only feel himself thrown around while being tightly grabbed by Lei Bao. His surroundings was pitch black and the only thing he could see was the light from the old man Lei Bao.

As if they stepped on air, they started to fall down. There wasn't any noise from the surroundings, it was as if the explosive noise from earlier deafened them.

No one knew how much time had passed, perhaps a moment, or even a whole day, either ways XinFeng had already lost the concept of time.

The old man Lei Bao was very stable as he held onto XinFeng. With a deep voice he muttered, "What the hell, what kind of a Hidden Lun space is this....."

Despite the short distance between XinFeng and Lei Bao, his deep voice seemed to have travelled to him from a far distance, XinFeng asked, "Grandpa, where are we?" He was shocked by his own voice, it sounded raspy and even had an echo, which was extremely strange.

The old man Lei Bao spoke, "I don't know either. En, the only thing I can confirm is that we've entered the Hidden Lun space."

XinFeng replied, "But I cannot see anything!"

The old man spoke, "Be patient, Feng, grab onto me!"

XinFeng grabbed Lei Bao's arm and moved bit by bit, finally climbing onto his back, "Okay, Grandpa, you can let go now."

It seemed that the two of them were floating in deepwater.

In XinFeng's head was a word, drifting, he felt as though he was drifting to god knows where, this sort of a strange feeling was driving him mad, luckily he was with Lei Bao and they could still speak, which eased the fear in his heart. This extremely strange experience had escaped the field of knowledge he had in his previous world.

While Lei Bao and the others were sucked into the Hidden Lun space, Thousand Sand Barrier had undergone shocking changes.

Between the sky and the land was heavy winds, lifting up sand as it was absorbed by an invisible force. A large group of men stood hundreds of meters away from Thousand Sand Barrier, watching the changes quietly.

Three men stood on a sand dune, a large amount of practitioners behind

them.

An extremely handsome young man looked at the sandstorm with a small smile, “I didn’t expect a Mighty Ancient Hidden Lun space, what a good fortune. Yi Daton, you contributed quite a bit, hehe, don’t worry...I won’t mistreat you.”

An old man with a face full of wrinkles laughed with flattery, “Senior, I also risked to report to you, fearing that this might be just a normal Hidden Lun space.”

Another man spoke, “Si Donald, we are late, if we had found the best location, we would have already entered.”

(Putty: 斯达诺= Si Danuo, it sounds like Donald.)

Si Donald spoke, “Never mind that, even if we came late, who could take anything away in front of us? Hehe, Sun Buru, to be able to come is already very lucky of us, if we were late by half or a year, then we would have nothing. This is thanks to Yi Daton.”

Yi Daton laughed along, “Senior Sun, I asked just now, there’s a fellow that knows what’s going on, I had men capture him, you can ask him.”

Sun Buru, “En, let your men bring him forward.”

Yi Daton waved his arm and two men immediately dragged a burly man over.

That man was the heavily injured Ai Sha Bo, he was actually dragged over like a dead dog. His despair filled eyes focused on the three men before him, that wrinkled old man was the one that caught him, he couldn’t even resist, because of his injuries, he couldn’t even reach his full potential and was easily captured.

Yi Daton waved his hand, “Throw him over here.”

Ai Sha Bo was then thrown before them. Yi Daton spoke, “Senior Sun, I brought him, this fellow should be a True Treasure Lun Yin master, a capable expert in Xi Rong land, hehe, that is a man who condensed five true ring bodies.” Actually he did not expect to easily catch an expert with

five true ring bodies and was pleased.

Sun Buru nodded, “En, five true ring bodies, that is indeed not bad.”

Si Donald smiled faintly, his hands behind his back. He didn’t speak and only watched on with interest.

Ai Sha Bo’s face turned green, a True Yin master actually revealed a boot-licking expression, he was wanting to learn how powerful were the two men before him, beads of sweat flowed down his forehead, his heart aching in agony. How unlucky was he this time, to be beaten silly by Lei Bao, and after he escaped with difficulty, he was caught by these men to be beaten yet again.

Sun Buru spoke, “En, you seem to have been injured already, by a lightning attributed expert.....so, what did you see in there? If I’m in a good mood, I’ll let you live.”

Yi Daton’s expression changed. Of course he knew how he won, but he didn’t expect Sun Buru to find out with a glance. He mustered a smile and a fake look of mindlessness, he wouldn’t dare to be dissatisfied with Sun Buru, even if he had exposed his flaunting, he could only act dumb. However with his pettiness, Ai Sha Bo’s fate was sealed.

Ai Sha Bo spoke, “I, I am an elder of the Scorpion Alliance.....”

Yi Daton viciously kicked him, and spoke indifferently, “What dog shit alliance....don’t flaunt it, hurry and answer senior’s question!”

Ai Sha Bo felt a surge of hopelessness, the opponent didn’t care less about his backing, he spoke embarrassedly, “Yes, yes....”

Sun Buru asked peacefully, “What’s your name? What did you see? Where are those powerful people? En, right, who hurt you?”

Ai Sha bo answered honestly, “My, my name is Ai Sha Bo.....I saw a lot of people inside, as for the powerful ones.....en, Tai Lang and an old man, he was the one that injured me. Right, I had people investigate, that old man’s name is Lei Bao, I can’t tell how powerful he is, he has the ability to injure me with a single attack.....”

Yi Daton spoke with surprise, "What? What did you say? Lei Bao!"

Ai Sha Bo replied, "Yes, I had found that out, I heard he's very powerful, a lightning attributed expert."

Yi Daton asked, "What does he look like?"

Ai Sha Bo explained Lei Bao's appearance simply and Yi Daton started to grit his teeth."

Si Donald smiled lightly, "Daton, you know that Lei Bao?"

Yi Daton replied hatefully, "Of course I do, ten years ago, he was the one that injured me, I almost lost my life. We.....we have great hatred among us! However that guy disappeared for ten years, I couldn't find him for so long, I didn't expect for him to suddenly appear again!"

Sun Buru spoke, "Hehe, I bet you can't exact revenge, with my experience, reaction generated from the descent of this Hidden Lun space probably isn't something they can block, they'll probably die in there, even if they don't then it's obvious they're stronger than you, for you to get revenge, it's hard."

Ai Sha Bo didn't know whether to be afraid of happy, Delon was murdered while he himself was injured greatly. As for Lei Bao, their animosity wasn't lacking, the only problem was that he wasn't friends with Yi Daton, and he could tell, this Yi Daton didn't have a good temper, his chances of surviving was still unknown, he couldn't be happy at this moment.

Yi Daton was extremely upset with Sun Buru's words, but he wouldn't dare to show disrespect. He could only suppress the raging anger and reply, "Perhaps I'm below him, but senior should be much stronger than he is!" He immediately thought of borrowing a knife to kill another.

(Putty: You probably heard of this idiom if you've read plenty of Chinese novels, it means to use another for your benefit.)

Sun Bur chuckled noncommittally, "Ai Sha Bo, why did your people fight with Lei Bao?"

Ai Sha Bo spoke helplessly, “They occupied the best location, so....”

Si Donald could not help but laugh, “So that’s it, to take another person’s land requires sufficient strength, without it, haha, you become a pile of dog shit.”

Ai Sha Bo couldn’t reply, to be laughed at made him despondent.

Ai Donald continued, “It seems, that Lei Bao that group have already entered the Hidden Lun space, pity, we cannot enter right now.”

Tremors came from afar, the entire land was trembling madly, Sun Buru spoke, “Thousand Sand Barrier.....would most likely disappear entirely, we don’t even know the size but I guess....that even if the entire Thousand Sand Barrier were to be absorbed, it wouldn’t be a big problem for it, the tremors might even reach us.”

Si Donald spoke, “Even if it spreads here, it won’t be too troublesome, at most it’ll be a small aftermath.” He spoke indifferently.

Hong!

Si Donald’s voice didn’t even travel far before the entire ground caved in, he escaped to the air with Sun Buru suddenly, although Yi Daton reacted a bit slower, however he managed to fly up while the heavily injured Ai Sha Bo could only fall instantly without any chance to escape. He howled with fright once and no sound followed after, no one knew if he died or fainted, but it wasn’t important, the only important thing was the entire ground was caving in by hundreds of meters.

## Chapter 10: Descend of the Space (2)

Miserable cries sounded, Si Donald and Sun Buru's expressions became ugly and awkward, more so for Si Donald, who was slightly furious, a group of underlings were frantically escaping and the three of them could only become saviors.

Luckily the shattered area was not large, adding the fact that all of them were practitioners, although quite a bit of men were buried, with their strength, they all started to burrow up, the only exception was the disappearance of Ai Sha Bo.

However Si Donald had also lost a few underlings, all of which were Ten thousand Lun and Milun masters, not one True master was lost but a few true masters with one or two True ring bodies were injured. After all, the strength of a True master is incomparable to Ten thousand Lun and Milun masters.

Si Donald and Sun Buru brought their gang of men to retreat outwards, even with the strength of Si Donald and Sun Buru, they wouldn't dare to recklessly enter and started to mercilessly kill the arriving practitioners, they also understood that this Hidden Lun space wasn't normal.

They had decided not to allow other forces to enter, as for the men inside, they would similarly kill them when the opportunity arrives, unless they were stronger than Si Donald and Sun Buru.

Lei Bao and XinFeng continued to float amongst the darkness, at this moment a large force pushed them forward, gradually increasing in speed. XinFeng tightly grabbed Lei Bao's neck as his leg coiled around the old man's waist. The old man released his Lightning stamp and set it below his feet as a layer of light covered the two men.

The two of them were like arrows being shot out, a sound similar to drums sounded behind them, something unknown was heading towards them.

The old man Lei Bao could feel something strange, he immediately sped the Lightning stamp up, madly rushing forward. He didn't know what was

behind him, or in front, but he did not want to drag to find out what the danger was.

Hidden Lun spaces of powerful experts are normally very vast, true masters' Great Hidden Lun spaces are very precious, however this Hidden Lun space doesn't seem to belong to one, but to an ancient expert. For all they knew, this could be a Hidden Star Lun of an unknown grade. This Hidden Lun space before them had a feeling similar to it, it was very similar to a Hidden Star Lun, but the old man Lei Bao had no methods to confirm since he hadn't seen a Great Hidden Lun nor a Hidden Star Lun.

XinFeng didn't understand what was a Great Hidden Lun or a Hidden Star Lun, he only wanted to enter, take the things inside and if his luck was good, perhaps he could find some rare items of the past.

Lei Bao was extremely excited, he knew that upon successfully entering the Hidden Lun space, then the rewards of this expedition would not be lacking, if he found a useful skill or item, he could perhaps even increase his level. He used the power of lightning this time to successfully level up, but as for the next level which was before him now, he received a great chance at breaking through which he would never let go of easily.

XinFeng glanced at the back, as it was pitch dark here, he could only rely on the old man Lei Bao's Lightning stamp's faint silver light to barely look at the surroundings, however nothing was on the road of their flight. XinFeng could feel a presence of something but he couldn't clearly see what it was, he spoke, "Grandpa, I can feel something coming towards us with a high speed!"

Lei Bao replied, "I know!" He madly flew forward, luckily he knew how to, if he didn't know how to fly and could only float with the ripples, he would have perhaps collided with the thing behind them.

Suddenly light appeared before them and in an instant, stars and spots appeared before Lei Bao and XinFeng's eyes, those were items that were deposited in the Hidden Lun space, the space between them was so small that they resembled a starry night's sky. Lei Bao spoke aghast, "This is a fucking Hidden Star Lun! This is a fucking Hidden Star Lun, haha,

XinFeng, we're rich!"

XinFeng didn't know that a single person could collect so many things, with a glance, he saw all sorts of countless items clustered together.

"How should we collect them?"

XinFeng knew that his Hidden Lun space was very small, at most it was a hundred or so meters square, which was even enlarged after his ascension to Milun master.

Lei Bao replied, "Nevermind that, take as much as you can!"

XinFeng was dazzled, not knowing what to take. Lei Bao reminded him, "Remember to take the special ones, those that you've seen before can be left behind, just look for things you've never seen before, especially recordable Star Python skins and specially crafted items, right, and medicine....don't miss it!"

The two of them madly started to collect items.

XinFeng noticed that he couldn't much move in the Hidden Lun space and could only stay behind Lei Bao. He simply took out a rope and attached himself to the old man Lei Bao's waist, using this rope he pounced towards interesting items and after obtaining them, he retreated using the rope.

As the old man Lei Bao's judgement was after all different, he brought XinFeng towards the interesting items.

In the entire Hidden Lun space, no one else entered, only the two of them were scurrying about in the space.

And in only a few minutes, large amounts of items were inserted into Lei Bao's large Hidden Lun space, it's size letting the old man collect without worries while XinFeng chose his items, he only took a few dozen items without checking what they were, as long as he wanted it, he immediately took it.

XinFeng suddenly pointed to a distance not too far away, "Grandpa, there!" He had the task of scouting and had to remind the old man Lei

Bao, this was the understanding among the both of them.

Lei Bao glanced over and flew there without hesitation, praising him, “Great job, Feng!”

Seven or eight items floated in the air, clustered together. XinFeng’s vision was indeed powerful, he had seen a scroll with a color similar to the skin of a Star Python, this was the item most important to Lei Bao, with his experience the more powerful Lei Bao was, the more benefits he could receive. Thus, he knew to find the things Lei Bao needed, not things he needed for himself.

Only now, did his emotions stabilize, the effect caused by entering was too great, he couldn’t even search properly.

Two pieces of Star Python skin was kept in Lei Bao’s hidden Lun space, everything else he left alone. He spoke, “Feng, you take it!”

XinFeng immediately took them, the items were not big either, suitable for him to keep. Suddenly, Lei Bao raised his head, “They’re here!”

XinFeng noticed a few human shadows suddenly appearing from afar, followed by a sight that shocked him, countless debris were spit out, instantly forming a sight similar to a sand storm, quickly dispersing.

Lei Bao immediately flew to another direction, he didn’t want to be buried by the stones. And because of the rope, XinFeng was also pulled by Lei Bao.

XinFeng did not have a choice, he purposely grabbed small items smaller than a few inches. As for the larger items, he completely ignored them as it wasn’t something he could take.

He suddenly noticed a silver white four inch long bone with the thickness of a calf. That bone was extremely special, it actually gave off light of electrical arcs, he immediately pushed Lei Bao to move towards the bone and grabbed it.

Lei Bao turned his head and glanced over, unable to contain his shout, he cried, “Good job! That’s a bone of a Star lightning beast, haha, Feng, your luck is really good, haha!”

Star Lightning beast?

XinFeng thought for a while before remembering the records on the Star Python skin, it was a powerful beast that went extinct a long time ago, like the Star Python, it was an extremely fearsome star beast of the past, a beast of the legends.

A beast capable of controlling lightning. It was said that this beast's bones were one of the best materials of lightning attributed weapons, containing electricity and they had actually found one here!

XinFeng turned his head and found that the debris was covered by sand, the human silhouettes that appeared initially were also similarly swallowed by the sand.

“Why is there so much sand?”

Lei Bao replied, “Very normal, if it were the sea, you would see infinite amounts of water pouring in and if it was in Tiger Cliff Castle, then mountains and trees would also appear. Of course they would be shredded into pieces before they could enter.”

XinFeng asked shocked, “What does this mean?”

Lei Bao replied, “We still cannot feel the pressure right now but once that gravel stops moving, you'll notice the appearance of a ground, followed by the collapse of the Hidden Lun space and at that moment it would reappear on Thousand Sand barrier, all the items contained here would appear there.”

Once this Hidden Lun space appears, it means that everything would burst out, many things would be hidden in the sand and many would land on the sand. At that moment, the real blood bath begins.

This would perhaps take three days, or a few months. Within this time, the first people who entered would be profiting the most, as they could receive the first batch of treasures, of course, that is you can protect it.

The practitioners in this world all have hidden Lun spaces, and the attribute of these spaces is that with the death of its owner, it would disappear and would not appear immediately, so robbery is not a working

alternative, unless you had a torture method to obtain the treasures, killing simply isn't the way to go.

At that moment, Lei Bao and XinFeng both found another shining object.

# Chapter 11: Bountiful Rewards (1)

Tai Lang felt extremely oppressed, ever since he was absorbed, he was floating. Of course, as an expert with five True Ring bodies he was slightly better off than others here, but he definitely wasn't as strong as Lei Bao to move as he wished. Only until the raging sand storm was he then pushed in the Hidden Lun space, instantly buried in the sandstorm, without even time to stabilize himself and so he couldn't propel himself or move he wished.

However, he still found a few items, he felt miserable as though he saw countless objects, unfortunately he couldn't take them.

Others were in roughly the same predicament, all of them moved along the sandstorm, their body pushed around unwillingly. The lucky ones could still take a few items, while the unlucky once couldn't even graze against even fur. Jin Da Pang especially suffered, upon entering the Hidden Lun space this fellow immediately saw dozens of items in the distance of a hundred meters, even before he could celebrate, it was already swept up by the sandstorm, causing chaos as even he himself didn't know where he was.

Lei Bao and XinFeng noticed a shining object and Lei Bao immediately brought XinFeng over, this was already the edge of the sandstorm.

As Lei Bao flitted past the shining object, XinFeng already moved away from Lei Bao's back and pounced towards that item. After grabbing it, Lei Bao had already speedily brought him away, the sandstorm had already swallowed that area into nothingness. Lei Bao asked, "What is it?"

XinFeng had already kept that item into his Hidden Lun space, he replied, "I didn't have time to see, I've already kept it."

Checking the spoils at this time was indeed unsuitable, it was for collecting other objects as such a chance was too rare, and the things present for taking were too many. A large portion of items were materials, of course materials are useful items, but when compared to finished products, these materials became insignificant.

Lei Bao and XinFeng had already discussed on the priority list for collecting items, practicing methods were the priority, after that was crafted objects used for mainly defense and offense, followed by the different rare materials and lastly was the items that just came their way.

The two searched back and forth, while the wall of sand behind them increased in size speedily, seemingly about to spread across the entire space, who knew how much sand the Hidden Lun space had absorbed from the outside. "Hong Wu" sounds traveled across the entire space, making even their hearts tremble.

XinFeng understood that in this mission, even if the rewards he and his grandpa received were the most, it was only 1-2% of the treasures present in the entire Hidden Lun space, among a hundred items, to be able to take one or two was already considered not bad.

The only pleasing thing for them is to know that the items they obtained were definitely the best, as with Lei Bao's judgment and experience, the items were all carefully chosen by the two, especially those rare practicing methods, all sorts of wares and ancient practitioner's medicine. XinFeng even found many almost extinct herbs and minerals which were ingredients of medicine as well as quite a bit of Star beasts' blood and bones, which were all extremely precious items, he had called Lei Bao immediately upon noticing them.

After four days, the entire space was filled with floating soil and sand, two-three meters away was pitch dark. Now they started to grab items from their surroundings, no longer choosing the items, simply taking whatever they could.

On the eighth day, a sound capable of shaking the earth sounded. The floating soil, sand and items quickly descended, enormous piles of sand appeared, burying large amounts of items including Tai Lang and his men. All of them were buried amongst the sand and soil, but they were strangely happy, as they could finally propel themselves. They started to thrash their way out of the soil and sand as they vigorously collected the various items at their side, laughing joyfully as they did so.

As the sky cleared and every item descend, Lei Bao and XinFeng stayed in the air, watching the strange sight.

Two items radiating off eye piercing light moved rapidly in the air.

XinFeng shouted, "What's that? Hurry and chase it!" As if he immediately knew it was something good.

Lei Bao's nostrils shrank, without even hesitating, he brought XinFeng to pounce on it, he had already identified what it was and his heart started to jump madly. That was a refined DianGangLeiJiang, another item of legends, it had obtained the rarely obtainable spirituality, and was actually attempting to escape the Hidden Lun space.

(Putty: 电罡雷浆 is something i don't know how to translate literally, when in the future the chapters give me more context regarding it I'll figure it out, for now please bear with me, kind people~)

XinFeng shouted loudly, "How strange.....that, that thing....knows how to escape!"

Lei Bao spoke with gritted teeth, "Of course, it has spirituality.....that is a DianGangLeiJiang! My chances of breaking through lies on that object!" His voice was trembling.

One big and one small, the large DianGangLeiJiang ball brought the smaller one flying around randomly in the sky, while Lei Bao brought XinFeng chasing after it, illustrating a strange sight.

Jin Da Pang climbed out from the sand like and immediately chanced upon a large piece of metal and he cried in joy as he hugged it, he could use this metal to successfully create a Lunqi and even more. As he kept it, thunder suddenly boomed above him and he raised his head to see a strange sight which made him cry out, "What is this!"

Tai Lang finally received an item that gave him hope, if was a rarely seem Lunqi. If he could raise his level again, he would be a True Yin master who indeed requires a Lunqi, even if this Lunqi wasn't compatible with his attribute, he could always trade with others. This eliminated all worry from his mind as he started his mad searching spree.

Everyone reaped benefits, of course there were casualties and deaths of a Ten thousand Lun master, who was buried alive under the deepest level of sand.

Lei Bao's cultivation was too deep, this fellow had always hidden his cultivation and never told anyone, even XinFeng did not know. He increased his speed rapidly, causing suffocation to XinFeng who was tied by the rope, but he knew that this was important to his grandpa and he held on to the rope without making a sound.

Finally, Lei Bao closed the distance to ten meters between him and the DianGangLeiJiang, he reached his hand out and a large arm made of electricity suddenly appeared, grabbing onto that bundle of DianGangLeiJiang. He swallowed it without hesitation and grabbed the other bundle of DianGangLeiJiang which was obviously smaller, the earlier one was the size of a pig's head, while this was the size of a grapefruit.

Lei Bao bellowed, "Open your mouth!"

XinFeng involuntarily opened his mouth, not to obey the command, but because of the shock he received from seeing Lei Bao eating that DianGangLeiJiang.

After catching that small bundle of DianGangLeiJiang, Lei Bao forcefully grabbed it and in an instant, that DianGangLeiJiang became the size of an orange and was immediately stuffed into XinFeng's mouth and down his throat.

XinFeng felt as though he swallowed a bundle of fire which burned him on its way down, he covered his mouth as he spoke, "Grandpa.....this....."

On Lei Bao's face was a big smile, "It's alright, it's alright, with your lightning attribute it'll be alright, if it was others they would have already been burnt to a crisp, haha, hahahaha!" He was extremely excited knowing that he could continue to raise his level.

With this DianGangLeiJiang, this trip was already worth it. He could confirm that with time, he could rapidly increase his cultivation. Everything else was insignificant.

XinFeng still didn't fully know the benefits he reaped and after seeing the excitement of Lei Bao, he now understood that he had benefitted greatly, but as for what this benefit was, he still wasn't sure.

DianGangLeiJiang was an item refined by great experts using natural thunder and lightning, formed after a careful and precise procedure. If absorbed by a lightning attributed practitioner, they must first need a Lightning stamp, it can also be interpreted as that only True Yin masters and True ring masters can swallow this DianGangLeiJiang, or they would be burned into ashes.

As for why XinFeng the Milun master was able to swallow the DianGangLeiJiang, was as he had received a lightning stamp when he just started practicing, which had fused with his body.

As Lei Bao knew a lot about his grandson, he dared to allow XinFeng to swallow this bundle of DianGangLeiJiang, the benefits it brought was unspeakable. It would help XinFeng build an extremely stable foundation, which would bring out his fullest potential. This thing called DianGangLeiJiang was something only great experts could create, which had both Lei Bao and XinFeng completely sure that the owner of this Hidden Lun space was lightning attributed.

Obtaining DianGangLeiJiang, Lei Bao was already satisfied and brought XinFeng down to the surface.

With a shout, everyone gathered.

Lei Bao announced, "Everyone listen to me before you go back to searching for items and treasures."

Gulu replied, "Alright, we have everyone's attention."

XinFeng curiously looked at the crowd, at this moment, Jin Da Pang limped over which made XinFeng laugh, "Da Pang....haha, hahaha!" He could not bear his laughter, this fellow was too miserable, his face covered by sand and soil with streaks of sweat washing lines off, his beady eyes fluttering nonstop, even on his eyelashes was a layer sand and soil while the color of his hair was undistinguishable.

Jin Da Pang replied, "Go on, laugh.....let's just watch you fly randomly around in the sky. Ai, I want a grandpa like yours too, I would also prosper." His tone was laced with jealousy.

XinFeng asked laughing, "How was your rewards?"

Jin Da Pang immediately became elated, he had collected nonstop and he already knew he struck gold, his future elevation to true master and condensation of a True Ring body would not be an issue. Practitioners require both practicing methods and resources, he did not lack in methods but in resources, after this treasure hunt, he wasn't lacking in anything else, since he could always trade for items.

Tai Lang checked his underlings and found out a few had been lost. His heart sank as he immediately issued orders for them to search for the missing.

Qi Xuan, Hong Chen and Yan all received great rewards, though they seem very unruly with sand and dirt covering their bodies, smiles were prominent on their faces.

## Chapter 12: Bountiful Rewards (2)

Tai Popo stood at the side, occasionally picking up a few things, all of which were various small rare ingredients that fell from the sky.

Yan Wu also burrowed out from who knows where within the sand, upon coming out, his face exploded in joy as he held a black ring in his hand, "Hey, anyone knows what this is?"

XinFeng recognized it and replied, "That's a little Lightning ring, you don't need it, it's especially made for Lightning attributed practitioners."

Yan Wu was generous and threw it to XinFeng, "Alright then, I'll give it to you."

XinFeng wasn't going to refuse either, though this thing wasn't precious, but it was indeed something he could use. This thing was probably an item made by its owner in the beginning and was forgotten after being placed in the Hidden Lun space.

An Yadan stood afar, her thoughts unknown, it was rare that she didn't bother XinFeng.

Lei Bao clapped his hands, "Alright, I'll just say a few things and you all can continue searching, I won't waste your time as it's important."

Everyone listened quietly, knowing that the old man Lei Bao wouldn't gather them for no reason.

The old man Lei Bao continued, "It won't be long till the Hidden Lun space collapses, it'll directly appear at Thousand Sand Barrier and I'm sure that there's a large amount of experts outside waiting for that moment. Therefore, once it collapses, don't hesitate and run outwards, kill anyone who chases you and if you can't, just try your best to escape, you all can form teams to help one another."

"Also, don't be greedy.....you cannot take everything here, leave a few things, it can distract a large amount of people."

Tai Lang asked, "If we don't escape and continue to stay, I think that.....perhaps there isn't anyone capable of posing a problem." He had

five true ring bodies and confidence in himself, especially so in Xi Rong land, where even strong dragons cannot trample on local snakes, he thought that he didn't need to fear foreign practitioners.

(Putty: it's a self-explanatory idiom.)

The old man Lei Bao didn't retort and nodded, "If you want to stay I won't stop you, just be careful."

Gulu was even upset at Tai Lang, he had the same thoughts with Lei Bao, it wasn't his responsibility to convince him, whatever happens, happens to him. Gulu had also decided on leaving, the rewards he received this time were second only to Lei Bao and XinFeng as he could fly short distances, much better than others. He planned to leave and trade with the old man Lei Bao to find more suitable things for himself.

In this time's Hidden Lun space treasure hunt, no one expected it to be a Hidden Star Lun, for it to be filled with so many things or even for it to be so dangerous. If they hadn't occupied the best location, then perhaps a lot of them would be dead already.

Tai Lang had confidence in himself as he had underlings to use, with a few True master experts, he believed that there wouldn't be many people capable of threatening him.

Jin Da Pang was conflicted, he did not have a senior or a teacher to help him, he was completely reliant on himself. Hearing Lei Bao's words, he immediately understood that once the Hidden Lun space appeared, he needs to immediately run, not stay here. He gently poked XinFeng with his elbow and asked softly, "Ai, Feng, when you guys leave, bring me with you."

XinFeng nodded, "Alright, as long as you follow us, you'll be alright." He didn't oppose to bringing Jin Da Pang, this fellow gave others a good impression and with him, who was capable of cooking great food, no one would starve.

Lei Bao spoke, "Alright, everyone continue searching. Feng, let's go!"

Jin Da Pang hurriedly followed over, "Old master, I'll go with you, hehe."

Lei Bao did not speak, but silently gave him permission to follow.

A large portion of treasures were buried, to dig them out was a hard task, thus, everyone focused on the large amount items gathered above the sand, which was enough for them to take.

There were all sorts of things on the surface, most of which were materials, as XinFeng's Hidden Lun space was not big, he only searched for those rare materials, while Lei Bao did not reject anything that came his way, everywhere he went, the items there would be swept clean.

XinFeng even found ancient Gold rings of the past, different from the gold rings now. The ancient gold rings were the size of a palm, it's surface filled with intricate patterns, he originally didn't want them but Jin Da Pang told him about how valuable it was, worth much more than the gold rings now, collected by some practitioners and had multiple names, the blossom gold ring and the ancient gold ring. One could be traded for a three thousand gold rings.

(Putty: a few chapters ago, it was mentioned that the gold rings are their currency.)

There were quite a bit of ancient gold rings here that did not take up much space, thus XinFeng took all of which was in his path. He didn't take it for himself, but for Xinyao, that little lady loved gold rings, this would be a small gift for her.

After a few days, XinFeng's Hidden Lun space was already filled and he could only start throwing away the worthless items.

Lei Bao and Gulu started to attack the sand piles, blowing them open and pushing out the hidden items below as the others gathered nearby to collect the items. The standard of true masters were higher, the useless items were left alone for those near them.

According to XinFeng's estimation, upon the appearance of this Hidden Lun space, the occupied space would not be any less than a thousand kilometer square, it was an extremely large space.

Lei Bao also gradually stopped taking items, he knew that he couldn't

take everything, to be able to obtain DianGangLeiJiang and a few Star Python skin records was already very lucky of him, now what he needed to focus on was how to leave. He was different from Tai Lang, he experienced too much and his instincts towards danger were especially strong, he could tell that this operation won't be very successful. If he were alone he wouldn't be afraid, but he needed to take XinFeng away and also retrieve XinYao, the two important things in his life.

Thus, Lei Bao must be prepared, he definitely did not wish for anything bad to happen. After discussing with Gulu, they each had a rough plan of their own, as for Tai Lang, he was on his own. This fellow was obviously entranced by the items of the Hidden Lun space, he brought his underlings around, desperately searching for items. However he couldn't be blamed, he had to take care of a large amount of people, seeing so many usable items, how could he just let it go.

The old man Lei Bao understood that with Tai Lang's greedy actions, he would suffer in the end. He had already reminded Tai Lang that the opponent wouldn't be a normal practitioner, but a true master with five true ring bodies. However, Tai Lang was not his underling, but his friend, he could not force him and so, he didn't speak more.

XinFeng had also stopped searching and started to train, confirming that the Hidden Lun space belonged to a powerful expert of the lightning attribute, which helped him immensely. Practicing here brought more benefits compared to practicing outside, the payoff within these days was very big, helping him vigorously improve his cultivation.

Today, the entire space suddenly started to tremble. The old man Lei Bao immediately gathered everyone except for Tai Lang's underlings. They were all surrounding him, they started to prepare for the collapse of the Hidden Lun space.

Leading his underlings, Tai Lang also invited the collapse of the Hidden Lun Space.

Lei Bao and Gulu released their stamps, a lightning and a fire stamp protected the crowd, as they awaited for its collapse.

“Kacha” sounds resounded as the earth started trembling intensely, large amounts of items spewing out from the ground, items no one dared to collect now. They could only watch as sand and soil rose, the entire space becoming blurry once again.

Like an enormous egg cracking suddenly, that invisible force suddenly exploded.

The people outside could clearly see smoke spreading, it was as if the entire sky exploded, sand and dirt erupted, covering the daylight forming a wall made of sand speedily making their way towards different directions.

Not only did it contain sand and soil, but also large amounts of materials and items, it was literally raining treasures, someone had already gotten the falling items and was crying out in joy but even before he could keep it, he was already stabbed to death with the item stolen immediately.

In that instant, the outside erupted in chaos. The practitioners that arrived amounted to over ten thousand people, it was truly overcrowded. As the sand storm came, no one dodged, instead they welcomed it by entering, everyone knew the space had collapsed, which signified the appearance of large amounts of items and materials, no one would leave now, as this place was filled with opportunities of striking rich.

Si Donald brought a large gang of men, he spoke with a deep voice, “No one move, wait!”

Sun Buru laughed, “The people inside haven’t appeared yet, why hurry, hehe, the good things are with them. That’s right, with that guy named Lei Bao.....right!” He turned his head towards Yi Daton for confirmation.

Yi Daton nodded, “That’s right, it’s that fellow. Catch him, perhaps you’ll get some good things.”

Si Donald spoke, “Don’t worry, he won’t be able to escape.”

The earth shook, sand and soil erupting. Those men who pounced into the sandstorm madly ran out, in that instant, countless men were struck

with sand and soil causing themselves to bleed from their entire body, with the speed of the debris, the frailer ones were pierced though. In an instant, there was at least thousands of deaths while even more were injured, ruining madly outwards looking unruly.

Yi Daton laughed coldly, "To be able to take advantage, it requires strength, this group of idiots!"

Sun Buru laughed, "Wealth is the greatest temptation, there's nothing strange about this."

Si Donald replied, "Alright, be careful, someone is about to appear."

The sand storm had already collided with these people. Si Donald suddenly flew into the air and raised his fist, with a 'hong' sound, the entire sandstorm heading their way was dispersed. It was actually pushed away with a single punch of his as a void was created in the air.

# Chapter 13: The Plight Of The Greedy (1)

The collapse of the Hidden Lun Space happened within a second, once that enormous force passed it would be safe. Dirt flew in the air, covering the sky. However, within only half an hour it started to disperse, clearing their view as countless items appeared amongst the sand on the ground.

Death cries sounded. To monopolize an area, practitioners killed others and collected the items, everyone wished for no one to attack them as they dug for items, but that was very unlikely to happen.

Without waiting for the sand to disappear, Lei Bao and the others immediately charged out. Lei Bao had even specially carried XinFeng on his back, even if XinFeng was already a Milun master, he was still a ten year old youngster in a place filled with malicious intent from other practitioners, Lei Bao did not wish for anything to happen.

Jin Da Pang followed Lei Bao as he ran, he did not wish to have everyone go their own ways, despite how he was chubby, he wasn't dumb, but rather an extremely smart fatty.

Gulu, Tai Popo, An Yadan, Qi Xuan, Yan Wu, Hong Chen and Yan all followed Lei Bao, as for the men of Tai Lang and himself, they separated, having not yet been satisfied with their harvest they stayed there.

Yan Wu and Gulu walked in front to kill, with Tai Popo and An Yadan at the sides, except Yan, Jin Da Pang and XinFeng who were Milun masters while the rest were true masters. Yan Wu and Gulu who stood in front were absolutely merciless, moving forward relentlessly as they killed.

Anyone who attempted to block or stood in front of them were killed without ruthlessly, they all became living targets, there wasn't time to explain, they were rushing to leave this place.

Si Donald opened a large space with a fist, with all the sand and dirt dispersing.

Sounds of death appeared, even those practitioners that retreated, started killing each other, every influential force gathered to attempt to

monopolize an area.

And at that moment where the sand and dirt started to disperse, Si Donald spoke, “Yi Daton, bring your men to clean, kill them all, I don’t want to see anyone alive!”

Yi Daton rubbed his fists eagerly, “Senior, don’t worry, I’ll take care of it! Follow me!” He waved his hand forward and shouted, “Kill!”

Two hundred Ture masters raced forward following Yi Daton, swiftly separating into different teams and headed towards the practitioners before them while there were still hundreds of practitioners behind Si Donald, similarly all true masters. With this strength, they could already sweep away the entire Xi Rong land.

As the two hundred true masters started their massacre, the practitioners of local influential forces were all terrified, this group was too abnormal, even a true master leveled elder died in their hands, they were not opponents for this group, it was simply an execution.

The practitioners that were fighting were all smart enough to disperse immediately.

Si Donald ordered, “Men!”

A true master walked forward, “Yes.”

Si Donald continued indifferently, “Split into groups of three and kill!”

The true masters behind him immediately began to move, as they walked forward, they split into teams of three and started to kill. These few true masters were like unstoppable killing machines, even other true masters could not stop their killing rampage.

Sun Buru laughed, “Xi Rong Land.....hehe, after this battle, it’ll probably lose half of its elites.

Si Donald spoke, “How many elites can such a small place contain.”

Sun Buru nodded, “Hope we can welcome a good harvest.”

Si Donald spoke, “The previous group better survive, or not it’ll be a big loss.”

Sun Buru laughed bitterly, “After all we came late, but luckily we still made it otherwise it would be even more regrettable.” Both him and Si Donald understood that the previous group of practitioners had the chance to get the best items, of course, for this Hidden Lun space, they could not take everything, but the chances of obtaining something good was still there.

One day later.

The troops Tai Lang commanded were still digging, taking item after item, treasure after treasure. They continued to keep digging, while Tai Lang excitedly watched the old man Lei Bao leave, he was still very happy as with these items he obtained, he could raise his and his underling’s strength. His thinking was that after this risk, Stellar Night Fortress could become the fourth largest power of influence in Xi Rong land.

And at that moment, a dozen true masters came, with three men in each team. Without waiting for Tai Lang to react, they already surrounded them, they were in the middle and it was obvious that they were the earliest group that entered, the target of Si Donald’s underlings.

Those true masters released each of their suppressive auras, and at that moment Tai Lang understood that they weren’t even their opponents, and he knew there was no medicine for regret, his eyes turned black, the only thought he had was that he was doomed. He couldn’t understand why there were so many true masters with such strength. If there were only a few, he still had confidence, even if there were 7-8 of them, he still would be able to retaliate, but with a dozen of them, he lost all his confidence.

The following sight made him despair even more, another 7-8 true masters came. Suppressing the madness in his heart, he spoke, “We are from Stellar Night Fortress, you people.....”

“Capture them!”

Those men did not even plan to listen and immediately ordered for their capture.

Tai Lang was after all an expert, with a bellow, he charged towards them. No matter what, he wasn’t willing to be captured, because at that

time, he would only suffer. As a True Treasure Lun Yin master with 5 true ring bodies, he was only a step away from becoming a true Yin master, he wasn't one to be bullied, if he were to go all out, even a True Yin master would have to be careful.

Pity that not only did the opponents have a true Yin master, they even had a few of them. With the other true masters, they slammed Tai Lang to the ground. If they did not have to catch him alive, then perhaps he would already have died.

As he was caught, Tai Lang understood, these men did not want to kill him, they wanted the items they had, if they died, then the items in their hidden Lun space would disappear, and they would never be able to take them.

That also meant, before they took out their items, they would be safe. Of course, if they did, then they would probably die.

The old man Lei Bao luckily lead the crowd away from Si Donald, their speed was astonishingly fast. The route they chosen was luckily empty, and as Si Donald's men started to block the road, they had already left, the timing between the two was only a small fifteen minutes. If Lei Bao had hesitated they would have collided.

Madly running the entire way, they made their way towards Stellar Night fortress, as for whatever happened next, it was none of Lei Bao's concern, to be able to leave successfully was already a win.

Passing through the Ancient Lun passage, they finally reached Stellar Night Fortress.

Entering the night fortress, they already met with bad news, A Silan had actually left with Xinyao, saying she brought her out to play, infuriating Lei Bao. He had originally wanted to leave after taking Xinyao instead of staying here, but he didn't expect to meet with such a situation.

After repeated asking, the old man Lei Bao finally found out that A Silan went to Wannsee continent, somewhere extremely far from the barbarian continent, Lei Bao understood that A Silan could not return immediately, she truly wanted to steal Xinyao.

(Puttty: 万湖洲 = Wannsee Continent. 万湖= Wannsee. Apparently it's a real place and since it sounds nicer than WanHu.)

XinFeng was even angrier, "Grandpa, let's go to the Wannsee continent."

After finally suppressing his anger, Lei Bao thought for a moment before speaking, "We'll wait a few days, if there's still no news, we'll head to the Wannsee continent."

XinFeng also calmed down, A Silan had planned this all along, to give up the treasures of the Hidden Lun space for a chance to abduct Xinyao, he replied, "Alright, then we'll wait, maybe they went somewhere closer to play, not Wannsee continent." He could not help but think this way.

Jin Da Pang came over to bid goodbye, he needed to return, "I'll go back and resign from my position." After obtaining so many resources for practicing, of course he did not need to stay in the army.

Qi Xuan, Hong Chen and Yan also left, they couldn't use the Lun spots and could only walk back taking quite a long time.

However, Yan Wu, Tai Popo and An Yadan were in no hurry to leave, they wanted to do a bit of trading with Lei Bao, exchanging a few of their items that they obtained from the hidden Lun space that did not suit themselves. Lei Bao had after all taken the most, perhaps amongst his loot was items that suited them.

Such an exchange was something everyone welcomed, and after a hunt, they needed to also organize their items.

XinFeng also took various things that filled his hidden Lun space, he needed to organize them. Some were for Grandpa, those that he didn't need were traded with others, of course, he carefully kept things that Xinyao could use, when they met in the future, he could give them to her.

After their transactions, XinFeng collected many items for himself and also some suspicious objects, many things of ancient practitioners were not something they could understand, by keeping them, perhaps he could someday understand their uses.

Tai Lang had already been tortured into disfigurement, but he refused to

give up his items. He knew clearly that once he did, he would be doomed, killed. Many of his underlings could not hold on and gave up their items, but the torture never stopped, the reasoning behind it was simple, they believed that they still had more items and if they gave them up, they would be free.

It became a cycle, by giving something up, one could rest for a while and even be given food before being tortured yet again.

## Chapter 14: The Plight Of The Greedy (2)

Today, Tai Lang was hung, exposed to the sun as an old man walked over, "Put him down and bring him to my tent."

Soon, Tai Lang was drug into a large tent, completely powerless. Not only was he unable to move, he could not even control his Hidden Lun space, it was sealed.

Tai Lang attempted to look at the old man, and when he saw him clearly, his dry lips trembled as his hoarsely spoke a single name, "Yi Daton."

Yi Daton took out a cup of water as he spoke, "Hehe, I didn't imagine meeting an old friend, I actually didn't know it was you that I called. Pity.....the other one wasn't captured."

Tai Lang sipped the water and after a while, he asked, "You mean Lei Bao?"

Yi Daton nodded, "That's right, I couldn't find him after two days, he wasn't among the corpses, I suspect that he had escaped."

After finishing the water and feeling better slightly, Tai Lang replied, "With your ability, you wish to catch him? Don't you think that you're overestimating yourself? You were beaten half to death last time, hehe, keke.....so it was your men who caught me.....no, with your standard, how could you have so many experts at your disposal.....keke!"

(Putty: keke=coughing. I'm not sure what to use to replace it....)

Yi Daton's face turned pale gradually as he glared at Tai Lang, "You're lower than a dead dog right now!"

Tai Lang replied, "Keke, that's right, that's right.....I'm indeed lower than a dead dog, so kill me if you can!"

However Yi Daton really didn't dare to kill him until he had gotten the items in his Hidden Lun space, they could only torture, not kill.

Yi Daton reached his hand out and patted Tai Lang's cheek as he asked,

“Can you tell me.....where did Lei Bao go?”

Tai Lang's hatred grew as he spoke, “You want to find him? Why do you want to die so quickly? No...keke, keke.....o, I understand now, you must have sought refuge under some influential force and now you're thinking that with numbers.....keke, unless there's a powerful expert.....I believe, with your power, Lei Bao would definitely kill you.”

A sudden imposing force came from Yi Daton, suppressing Tai Lang's breathing, after heaving for a while, Tai Lang replied, “So you're already a True Yin master, no wonder you're so presumptuous, haha.....but you're still incomparable to Lei Bao, you'll still lose, haha....keke....ah.....”

Yi Daton had kicked Tai Lang over, viciously stepping onto his hand, twisting his feet forcefully, “Is that so? Is that so?”

Si Donald walked over and commanded indifferently, “Release him.”

Yi Daton quickly moved his feet back and replied while bowing, “Senior, I'm interrogating him.”

Tai Lang laughed, “Haha, keke, ha....Yi Daton, you're still so shameless, bending your back towards the strong and bullying the weak, I.....keke, I could never get used to your ways!”

Si Donald sat down, “Lei Bao must have gotten the best items, you yourself should also have quite a bit, take it out and I'll spare you.”

Tai Lang laughed coldly, “I don't think that after I do, you'll spare my life! Keke.....keke.....”

Si Donald replied indifferently, “With my status of Ashen True Yin Master, as long as you take out your items, I'll spare you!”

Ashen true Yin master! That was an expert that had condensed a True Ring body, and in this continent, it was considered to be the top expert.”

Tai Lang was instantly stunned, he did not expect that an ancient Hidden Lun space to attract such a powerful existence, he spoke, “You, you....keke, kekeke!” He was scared stiff, a True yin master with a true yin body was definitely a top figure in a large sect, as those with 7, 8 true ring

bodies of a single True Ring body were characters of legends. He couldn't be blamed, as a true master with five true ring bodies, it was hard for him to come into contact with such a high figure.

(Putty: WHATS THIS??? HUH? I'm confused with the ranking system, oh god is this a mistake?) (l3lacksheep: I have no idea. I kinda gave up at the rankings.)

Yi Daton became extremely satisfied with Tai Lang's shock, he took the chance and spoke, "Still won't promise senior?"

Tai Lang was only shocked at the opponent's strength, but he still believed in his previous judgement, and spoke, "I know clearly, that even if you are a Ashen True ring master....keke, you're still the fucking same, everyone is greedy, especially so with the strong, keke, I don't believe you, kill me instead!"

Si Donald indeed did not intent on releasing Tai Lang, even if he didn't kill him, he had plenty of men to do that job, no matter what, he wouldn't have killed him.

Yi Daton scolded, "You bastard, obstinate fool!"

Tai Lang opened his dried lips, laughing soundlessly before coughing yet again, coughing out a mouthful of blood, "You're more of a bastard, more of an idiot, no need to be jealous of someone smarter than you."

Si Donald furrowed his brows before speaking, "Lock him up."

Before Tai Lang was dragged away, a true master entered and spoke, "Elder, we've found out that they've stationed at Xi Rong land in a place called stellar night fortress, I've heard that Lei Bao's granddaughter is there, they will definitely go there, but, we cannot be sure if they will stay there for a few days."

Tai Lang vomited another mouthful of blood, he was both worried and angry, knowing that his underlings had broken under the interrogation."

Si Donald revealed a faint smile, "Wonderful, Tai Lang, soon....Lei Bao will come and keep you company."

Tai Lang gurgled a sentence, "I hope you die!" But with it contained with the sound of sloshing blood, even with Si Donald's True ring body, he couldn't understand his words.

Si Donald commanded, "Yi Daton, you follow me."

After finding Sun Buru, Si Donald spoke, "I will we going out on a trip, you'll take care of digging and collecting items in this place, no matter who, if they dare to enter, kill them. I don't wish to witness an accident, I believe that.....this place definitely has good things, they cannot have taken everything."

Actually this was indeed only a guess, Si Donald did not know what Lei Bao had taken but from the reports of Tai Lang's underlings, he had formed his own's suspicions. However, he still understood that Lei Bao must had taken a portion of the best things, and that they were all key items like practice methods. These were the items important to him, his training had came to a standstill, he urgently needed the practicing methods of the ancients, and that was why Si Donald had urgently went to find Lei Bao.

Sun Buru nodded, "No problem, I've caught a few thousand men we could use, their Hidden Lun spaces have been sealed, they cannot use the items they've dug out."

Si Donald spoke, "En, don't worry, the things I get, I will share some with you."

Sun buru of course understood, those he would share would be practicing methods, the others would be unsharable, but even so, he was satisfied, "Alright, no problem, I'll take care of this place."

Si Donald asked, "Do you still have enough underlings?"

Sun Buru laughed, "To flip the entire ground.....there'll never be enough men, en, how about sending a dozen true master to each sect, I need large amounts of men."

Sun Buru nodded, "Alright, you find someone to take care of it, I won't bother."

And so, Si Donald left with Yi Daton and a guide, as he was unfamiliar to Xi Rong land.”

That guide was a ten thousand Lun master from Stellar Night fortress, as he was unable to tolerate the torture, he had betrayed Tai Lang completely, telling everything he could and couldn't. This ten thousand Lun master was called Houlu, nicknamed Monkey, he was known to be clever and cunning and fearful of pain and death, after only a day of torture he completely gave up.

Passing through the Lun spot, Si Donald speedily made his way into Xi Rong land.

With the traitor Houlu, Si Donald and Yi Daton easily found Stellar a Night fortress, their speed extremely fast with Si Donald's secret method, with only three days, they've already passed the small stone bridge.

Immediately they were spotted by patrolling teams and were interrogated.

Houlu of course knew them, he walked forward and spoke, “It's me!”

The patrolling teams were shocked upon noticing him, “Its you, monkey, where are the others?”

Houlu didn't reply his question, “I have important things to do, is senior a Lei Bao still here?” He asked nervously, looking at them. Si Donald had already promised him that if Lei Bao was at Stellar Night fortress, he would immediately let him go.

The patrolling team replied, “Senior Lei Bao is leaving tomorrow, but he is still here now.”

Houlu immediately turned around, “Senior.....um.....” He wanted to ask, if he could be released, but before he could ask, Yi Daton's fist landed on his head, exploding his entire head, and then, Yi Daton started to kill.

Si Donald had his hands behind his back, his eyes squinted in joy. He had indeed promised Houlu, but Yi Daton didn't. Therefore, he didn't attack, but Yi Daton did. Tai Lang was indeed a smart man, refusing to promise Si Donald anything.

The strongest among the patrolling team was a Milun master, how could he ever go against a True Yin master and a True ring master? In a few seconds, they were all killed cleanly, none were capable of escaping, or even releasing a warning. The opponent was far too strong.

The two of them swaggered into Stellar night, the central of Stellar a Night fortress.

Si Donald wore a faint smile, watching Yi Daton kill one man after another easily, but there were still those that escaped and sent out warnings, causing waves of practitioners of gush out in support, but there were all walking to their deaths. If they had stayed in their houses, then Yi Daton wouldn't have bothered to search and kill either, but they all came out to block, easing his job.

Quickly, the two of them arrived at Stellar night, under the large umbrella like structure's door.

The practitioners here all dispersed, Lei Bao and his men had already received the news.

Yan Wu spoke, "That's not right, two men coming in to kill.....unless, they're from Thousand Sand Barrier?"

Gulu replied, "That's likely."

Lei Bao thought before speaking, "Then let's check it out." To be so daring to enter, either they're madmen, or experts. His suspicions leaned towards the latter.

# Chapter 15: Great Bloodshed

Lei Bao, Gulu, Tai Popo, An Yadan, Yan Wu and XinFeng who had always followed Lei Bao all came out together.

As Lei Bao saw Si Donald clearly, he could not help but furrow his brows. He could not sense the strength of the opponent, which was something very rare with his current cultivation. Basically, as long as it was a practitioner, he could guess their strength. Could it be that this man was stronger than him? He immediately became alert.

Their gazes turned to Yi Daton and Lei Bao asked blandly, "So it's you!" He recognized him.

Yi Daton was similarly shocked, he also could not sense the old man Lei Bao's strength. One must know that he had similarly experienced an explosive growth in strength during these few years too, before he came, he had already decided that even if he could not beat Lei Bao, he could at least fight. He didn't expect that after not meeting for so many years, this irascible old man's strength would increase by so much. However, with Si Donald here, he felt very calm.

Si Donald was also curious, he could only vaguely sense Lei Bao's strength, it made him feel slightly frantic, suddenly unable to sense everything. With a calm expression, he asked, "So you are Lei Bao?" In an instant, he had changed his mind on using force to solve this problem.

Lei Bao asked, "Who are you?"

Si Donald replied, "Si Donald, Ashen True Yin master."

Lei Bao immediately stood straight and muttered, "No wonder he's so daring."

The others, including Gulu, could not help but take a step back. This was too fucking scary, with their experience, this was their first time seeing a top True master, a True Ring bodied True master, perhaps there were others in this continent, but this is their first time seeing a live one.

Si Donald was not frustrated in the slightest, he replied, "You're also

roughly there aren't you, let me guess.....you're at least a True Heart Yin master! A bit more before you become like me."

This was even scarier, Yan Wu, Gulu, Tai Popo and An Yadan all revealed extremely shocked expressions. No one expected the old man to actually be so secretive. XinFeng was similarly shocked, he had always been guessing his Grandpa's cultivation, but he never actually expected him to have reached such a height.

Lei Bao, "You're too flattering."

Yi Daton's face became pale, he didn't expect that Lei Bao's cultivation would pave a way for himself. Yi Daton could not help but secretly be glad to be able to follow Si Donald here, if he had come on his own, he would have been killed.

If Lei Bao was a True Wild Yin master with seven True Ring bodies then Si Donald would have captured him, but he was a True Heart Yin master with eight True Ring bodies, he had lost his confidence, especially so as the old man Lei Bao was a lightning attributed practitioner with powerful attacks, an attribute that triumphed his.

Si Donald was dark attributed, his attacks were similarly powerful, but darkness was naturally controlled by lightning. When it came to practitioners of the lightning and light attribute, he would kill them if he could to eliminate future threats, in this life, he had killed countless lightning and light attributed people.

Only, Lei Bao had reached the level of a True Heart Yin master, someone he cannot easily kill, perhaps he could win if he were to fight to the bitter end with Lei Bao but he definitely could not have him stay. To make an unkillable enemy was something he didn't want to do.

Lei Bao asked, "You caught Tai Lang?"

Yi Daton shouted, "Tai Lang that piece of trash did not even need elder to catch him, he was just caught easily by an underling." He wanted to provoke a fight between Si Donald and Lei Bao, he had already seen the hesitation in his eyes.

A flash of regret appeared in Si Donald's eyes, he knew that he had been careless. If he had brought Sun Buru, then he definitely would win, he hadn't expected Lai Bao to actually be a True Heart Yin master. It had become troublesome now, however, he wasn't afraid. After all, he was a level higher than Lei Bao, even if the opponent's attribute triumphed his, if they were to fight, he believed that he wouldn't lose. As for the others, he could tell they were all shit, not even worth mentioning.

Lei Bao spoke, "Release him!" No matter what, Tai Lang was still his friend.

Si Donald's expression became dark, "Whether we release him or not.....it doesn't concern you."

Lei Bao nodded, he didn't expect them to release him, he instead had already planned to escape, as long as he could leave, then with the treasures of this time's hunt along with the lighting storm practicing method, he believed that he could raise his level to True Ashen Yin master. He actually had already reached the threshold of leveling up, but as he didn't have time to train, he was currently stuck at this bottle neck. To clash with Si Donald now would be an unintelligent choice.

He had long passed the age of recklessness, he didn't start fights after a few sentences like before, instead he understood Tai Lang's thoughts, some things, must be done.

If he were to escape, Si Donald wouldn't dare to kill Tai Lang in fear of offending a True Heart Yin master, who knew when a True Heart Yin master would become a True Ashen Yin master? Among True Ashen Yin masters there were rarely fights, but there were countless scruples. One of them could control many True masters, if two of them were to fight, it would easily spread to their underlings.

The act of a True Ashen Yin master killing True masters, was something as simple as killing chickens. This was the reason behind Si Donald's hesitation. If Sun Buru had come, then with the both of them combined, 2 true masters with 8 True Ring bodies and one True Ring body, they could still make a True Heart Yin master stay. This was the

reason for his regret.

(Putty: the author is getting on my nerves by repeating “A True Ashen Yin master with a True Yin body” over and over again, I’ll shorten it to A True Ashen Yin master because we ALL know it already.) (l3lacksheep: I think I am starting to understand the true body rank system thing??)

Yi Daton shouted, “Who are you to tell senior to release him?!”

Lei Bao glared at him, “Yi Daton, wonderful, don’t let me catch you in the future!” His tone was extremely light, but it carried a threat.

Yi Daton did not dare to speak anymore, a surge of regret entering his heart. Despite Si Donald’s indifference to them, Yi Daton wasn’t uncaring, if he were not to be at his side, then Lei Bao would have probably already killed him with ease.

XinFeng noticed that the more powerful a True master was, the more cautious they were towards battle, with the old man Lei Bao’s temper and personality, he was still suffering to today, one could tell his aversion to battling other powerful people.

Si Donald spoke, “You must have gotten quite a bit of items....”

Lei Bao replied, “That’s right, I did, so what do you want to do about it? Will you capture me like how you did to Tai Lang? Will you force out item by item?”

Si Donald revealed his signature smile, “Of course not. Right now my underlings have taken control of the entire Thousand Sand Barrier, hehe, that also means that after the entire land had been unearthed, everything will be mine....I believe, we can trade, can we?”

Lei Bao was an experienced man, he had seen all kinds of tricks. He replied with a smile, “Not interested. I already have the things I need, there’s no need for me to go again.”

Si Donald cursed silently, “Old fox!” If he could fool Lei Bao then even if he was a True Heart Yin master, he would still die. No, he would be in a state where he wished for death.

Yi Daton felt pity in his heart too, he had immediately understood Si Donald's thoughts.

Si Donald asked, "I wonder if you had gotten any Star Python Records? If you did....I hope to trade for it with you...." After thinking about how impossible it would be, he continued, "En, it's fine even if we don't trade it. Copy it for me....I will give you something in return."

Lei Bao wanted to laugh. Giving him the Star Python records would bring undesirable consequences after he had broken through. He wasn't friends with Si Donald after all. He spoke, "I didn't get one, if I did I would have left already." This wasn't the reason why he didn't leave, but he spoke very naturally and sincerely, without giving off the feeling of a liar. Currently, only XinFeng, among the crowd, knew he had actually obtained a Star Python Record.

XinFeng was extremely impressed, he didn't expect grandpa to be such a good liar, even himself was almost fooled, but he knew clearly that the old man Lei Bao not only had a Star Python Record, he had multiple.

Si Donald's face grew uglier and uglier, "No?" He didn't believe him at all, he believed that this old fogey was lying but he couldn't do anything to force him to take it out.

The old man Lei Bao replied, "No!"

Si Donald finally could not bear it anymore, he really needed it, his need surpassed the danger of offending a True heart master. He spoke, "If..... we were to fight, how many of those around you, will survive?"

The old man replied, "Are you threatening me?"

Si Donald spoke curtly, "Of course!"

The old man Lei Bao's face became solemn, "You can try!" He actually wanted to fight Si Donald too. Lei Bao knew that he was a step away from obtaining one True Ring body, adding the fact that he was lightning attributed, his attacks were extremely powerful. He didn't believe, that he would not be able to last against Si Donald without attacking once.

Yan Wu grabbed XinFeng unhesitatingly and ran towards Stellar Night's

inner parts while Tai Popo and An Yadan protected their sides, similarly retreating, leaving Gulu to block Yi Daton's way. The old man Lei Bao had also blocked Si Donald, the two of them started to attack without hesitation.

The old man Lei Bao was relieved slightly by Yan Wu's intelligence, he had immediately taken care of his biggest worry, this was also because of Si Donald's lack of Intel, if he had grabbed XinFeng then Lei Bao would have been powerless, this was his weakness.

Si Donald and Lei Bao attacked at the same time.

Similarly, Gulu and Yi Daton also attacked.

Si Donald's target was Gulu, while Lei Bao's was Yi Daton. The both of them had the same motive, that was to sneak in an attack first before actually fighting. The both of them had settled on attacking the enemy's ally.

Yi Daton was sent flying by a thick Lightning strike from Lei Bao's while Gulu was beaten to the point of vomiting blood.

Lei Bao shouted, "Gulu, take them away!" As he took Si Donald's punch head on.

Hong!

Gulu clutched his chest as he ran towards Stellar Night with a limp, he understood what Lei Bao meant, which was to take XinFeng away from here.

# Chapter 16: Reign Of Terror

Yi Daton sat on the floor, vomiting mouthfuls of blood as he watched Lei Bao with lingering fear in his heart. With only one attack, he had already gravely injured him, if not for his high leveled defense Lunqi, then he would have already died.

Black smoke rose, spreading quickly.

Yi Daton ran outwards with all his might, he wasn't dumb enough to not hide during an extreme experts' fight. Madly fleeing, he used every bit of his YinLi, any houses or walls obstructing his way were smashed away. That black light that resembled demons made any item it came into contact with create a "Chi chi" sound, that chilling corrosive power demolished a building within seconds, perhaps if anyone were there, then they would have become a pile of ash in seconds.

Lei Bao's entire body gave off light, with a bellow, countless sparks flew outwards, similarly spreading speedily.

Si Donald shockingly noticed that the Lightning indeed restricted him. Throwing out a punch, an invisible force covered Lei Bao's body, suddenly exploding, countless ripples forming between the two of them, dispersing into the surroundings.

Gulu had already led the others to escape from Stellar Night, just as they stepped a foot outside, a huge shockwave came their way, destroying Stellar Night in an instant.

Yan Wu carried XinFeng on his back as they all ran madly at their fastest speed, something that shocked XinFeng, he felt as though he was seated on the fastest car in the world, the wind that came his way made him feel as though he couldn't breathe. He could only bury his head on Yan Wu's back to breathe as he watched a shocking sight, the entire umbrella shaped building was soundlessly broken down into dancing debris that filled the sky.

A flash of black light and a flash of silver light rose from the ground as two human shadows attacked each other from the ground to the sky.

Thunder roared as the entire sky became quiet, between the battle of these two, one resembled the clouds and the other resembled lightning.

Lei Bao reveled in the battle as Si Donald was shocked, he never fought against a light leveled lightning attributed practitioner, he did not expect such strength, despite that he was a level higher than Li Bao, he was unable to completely suppress the opponent.

The both of them didn't use their strongest attacks, but they instead kept probing their opponent, but even so, they had shook the skies and cracked the earth. On the ground was countless escaping practitioners, it was truly terrifying, once the tremors were spread somewhere, then practitioners would either be dead or gravely wounded, it was like bushfire, no one dared to stay.

Death came with the slightest of delays, the sky was shaking, the ground was burning, lightning strikes hit the ground, inciting countless fires.

If it were only flames then it would be fine but black rain also descended causing green smoke to rise from the ground, that sort of corrosive effect was too terrifying, even if there were defenses on a practitioner, it had no effect. With one drop, a hole would quickly appear on one's body, rapidly increasing in size. A dozen men had already died, causing the surrounding men to run madly.

Lightning unceasingly fell, Lei Bao and Si Donald fought from the sky to the floor and back to the sky again, the more they fought the angrier they were and they gradually became more brazen with the passing of time.

Thousand Lightning Strikes!

Thunder rumbled as dancing sparks filled the sky, the chilling air in the sky was chased away, revealing Si Donald's silhouette, instantly angering him.

Chilling Winds!

Swirling cool wind blew.

Forming into black one inch wind needles, they broke past the

Thousand Lightning Strikes and headed towards Lei Bao.

A lightning ring dispersed and Lei Bao laughed coldly, "True Ashen Yin master, how imposing of you!"

He had already used that chance to escape, the opponent was indeed stronger, but he wasn't fearful. He had also noticed that his lightning power had prevented the opponent from using his full power, this was the power of attributes, something not even hard work can surpass unless the difference between the two sides was too big, but currently they were both similar in strength, this allowed him to suppress his strength and save himself.

Si Donald was extremely angry, this was his first time being restrained like so, that sort of humiliation was infuriating. He madly shouted, "Bastard, I'll let you see....what is a true True Ashen Master! Fuck!"

It was a reign of terror!

A dark light contained a countless red colors, Si Donald's Dark Stamp flew out, caging the entire sky and land, it's circumference reaching a few hundred kilometers.

On the ground were men that already escaped the distance of a few dozen kilometers, they had noticed that it was as if the sky was covered, it became dark as a bloody smell permeated their nose, everyone started to tremble from their hearts. There were many normal humans outside Stellar Night Fortress that died soundlessly here, with only the smell of blood, it was already enough to claim their lives.

Lei Bao was like a huge light, radiating a sliver glow as countless thick lightning strikes created thunder, spreading in circles. Upon coming into contact with the outside air, it would create a 'Chi Chi' sound as plumes of green smoke dissipated. No matter how poisonous an attack was, upon meeting with electricity it would become ash. This was the benefit of attributes.

Yan Wu and the others did not dare to stop, despite being weaker than Lei Bao and Si Donald, they knew a lot about these sort of battles. The more they ran, the better. Under Gulu's rushing, they had already went a

distance of a hundred kilometers, escaping Si Donald's Dark Stamp's cage.

However, someone didn't escape, it was Yi Daton. This fellow did not know about the danger and didn't expect Si Donald to be so crazy to use his Dark Stamp, luckily he had a True Ring body and with the help of his stamp, he barely managed to block it. Even so, he could only prevent his death, heavily injured, he had hastily taken out a tube with green medicine and drunk it, it was a tube of high quality medicine that had eased his suffering by a bit.

Whether it be practitioners or normal humans, other than Yi Daton, everyone else died.

And so, Stellar Night Fortress was erased from Xi Rong land.

Everyone stopped and stared at the black cage covered land. Yan Wu asked, "Do we wait?"

Gulu replied, "We can't, we will leave immediately....Keke...." He vomited a mouthful of blood, "Fuck, he's really strong, I'm actually still alive!"

Yan Wu agreed, "Alright, I know it's not smart to stay too. What do you all say?"

Tai Popo replied, "Leave!"

An Yadan spoke, "I'll take Feng. Feng, stay with me for a few days and wait for your grandpa."

XinFeng shook his head, "No, I'll leave with Brother Yan Wu." He didn't want to go to An Yadan's, that woman was mad.

An Yadan spoke, "Feng, you're breaking my heart, to think I've been so nice to you!"

XinFeng had a headache, he didn't want to have any relations with An Yadan, "I know, I know, but I want to go with Brother Yan Wu."

An Yadan didn't force it either, "Alright, alright, then if you have the chance you must come and play, this you must promise me."

XinFeng wore a honest expression and replied, "I will, I will!"

An Yadan spoke, "You can act like your Grandpa!"

XinFeng was choked speechless as Yan Wu burst out laughing, "Just leave with me, hey hey, it's more fun with me."

Gulu swallowed a tube of medicine and instantly felt better, after turning back once, he spoke, "We must hurry, we don't know how long Old master can hold for."

XinFeng asked, "Grandpa is fine, right?"

Gulu replied, "Perhaps he won't win, but escaping should be no problem, let's go!"

A few minutes of battle shocked both Lei Bao and Si Donald, a few hundred meter area was ruined, both houses and trees, both normal humans and practitioners, because of their fight, were reduced to ashes.

Si Donald was extremely worried about Lei Bao, he needed to kill him. The threat he brought was far too big, if he rises by another level and becomes a True Ashen Yin Master like him, then he wouldn't be sure of winning, perhaps he would even lose.

He was extremely regretful, if he had brought Sun Buru, then Lei Bao would have been doomed, he started to fret. Next time, he would bring stronger underlings.

Lei Bao had held off a few minutes, after fighting, he had started to feel tired. After all, a battle with a True Ashen Yin master was too tiring, he didn't fight head on anymore, he had started to use his tactics to hold him off.

It wasn't that Si Donald couldn't see through Lei Bao's tactics, but Lei Bao had an extremely sly trick, it was to use electricity to accomplish something like teleportation, after avoiding an attack, with a lightning strike, he would retreat a few hundred meters, leaving the battle in an instant.

If it weren't for fearing that Si Donald would chase Gulu and the others,

Lei Bao would have escaped already. He wasn't that dumb to fight with such a powerful expert.

Si Donald had already noticed that something was wrong, the distance between him and Lei Bao increased, it made him think that the old fogey was about to run. Pouncing, he attempted to stop Lei Bao. He believed that if he were to drag out the fight then he would definitely be able to wear him down and have him exhaust his strength, it was a sinister plan.

However with Lei Bao's speed, after using his full strength, Si Donald couldn't catch up, this was because in Lei Bao's body was a DianGangLeiJiang with a soul, once he had completely refined it, then his strength would immediately increase, it was only that he did not have enough time to practice but after obtaining the DianGangLeiJiang, his speed suddenly increased and he obtained the method similar to teleportation.

Si Donald had failed multiple times in catching Lei Bao, causing him to shout in frustration, with such a calm personality, it was shocking to see him lose his cool like such. If Yi Daton were to see him now, he would also be shocked.

Lei Bao's attacking ability surpassed Si Donald, lightning strikes as thick as buckets forced Si Donald to change his position, though these lightning strikes could not threaten his life, but it's ability was extremely annoying, it made him tremble for seconds.

Finally, Si Donald stopped with a strange smile suddenly appearing on his face, "Alright, I won't chase anymore, haha, I'll chase your underlings!" He had assumed Gulu and the others to be Lei Bao's underlings, instead of friends and his weakness, especially with XinFeng.

# Chapter 17: Solitude (1)

Si Donald was very straightforward and walked in the direction Gulu retreated to.

Lei Bao was instantly worried and cursed, "Bastard!" As he chased him, no matter what, he couldn't let Si Donald have XinFeng.

After chasing for a thousand meters, Si Donald finally reacted and changed his direction.

Lei Bao also turned, he had almost instantly understood that Si Donald wanted to go to the closest Lun spot, the best place to run to and also the only way to leave, as after entering this Lun spot and into the Ancient Lun passage, anyone who didn't know how to open it would be blocked at the entrance. The entire Ancient Lun passage was like a huge network, the strong could go far while the weak could only go to the closer places.

Of course, Lun spots of the Ancient Lun passage were not something anyone could open, at the least they were required to be a True Great Lun Yin master with 4 true ring bodies to open it, without meeting those requirements, even if they knew where the Lun spots were, they wouldn't be able to use it anyways.

Si Donald flew very quickly, with Lei Bao chasing madly behind as he shot out streaks of lightning occasionally.

The attack speed of Lei Bao's lightning strikes belonged to one of the fastest types, every attack had forced Si Donald to pause, dragging down his speed.

One attack that hit Si Donald caused him to stop for a least a few seconds, causing him to turn around to attack Lei Bao in anger, but Lei Bao had dodged. Like this, the two of them fought along the way wasting half a day before they reached the Lun spot.

Light flashed from the far away activated Lun spot, the Ancient Lun passageway had been opened.

Si Donald shouted, "Stay!" As he punched the air, aiming at he Lun spot.

With his ability, destroying a Lun spot isn't impossible, this Lun spot was created in ancient times, its foundation's strength reached an impossible extent but with his punch, it was definitely possible for him to break it.

The Lei Bao didn't speak and suddenly started shining with a ball of light, he had pitifully used a bit of his DianGangLeiJiang, but despite it being only a little, it had hurt his heart.

Gulu and the others who stood at the Lun spot were all shocked, they had already activated it, only a few seconds and they would have entered the Ancient Lun passage. Receiving a blow right now had caused the ancient Lun passage to be messed up. Only the heavens would know what happened, among all the practitioners in this continent, no one would go and attack a Lun spot.

With only a bit of DianGangLeiJiang, the strength of Lei Bao's attack reached an impossible level, a sudden explosion sounded.

Si Donald's body trembled, his fist had landed on the DianGangLeiJiang, and in that instant, goosebumps appeared on his body as he shook, dropping from the sky. If it weren't for Lei Bao who had yet to refine the DianGangLeiJiang, then this attack would have claimed half his life.

The aftershock of the two attacks still affected the Lun spot, as Si Donald dropped from the sky, the ancient Lun passage gave off a bright light as the men on the Lun spot disappeared.

Si Donald could only control his body after falling to the ground, he did not know if he had stopped the ancient Lun passage but he understood that there would be a little impact on them anyways. The only thing he forgot was that the others would be fine as they were true masters with four ring bodies, but there was a young Milun master mixed among them, he was far too weak, causing the impact to be greater on him.

Lei Bao also understood that, despite how he was about to go mad, he still controlled himself, after all he was a True Heart Yin master, he could control his emotions well enough. He shouted, "Si Donald....I'm not done with you! I'll never let you go! I don't fucking believe in underlings or relatives!" After he finished speaking, thunder boomed and he appeared a

hundred meters away, with continuous thunder, he disappeared.

Si Donald smiled bitterly, he had truly offended a fellow he shouldn't this time, a True Heart Yin master with 8 True ring bodies could already fight equally with him now, if he were to get stronger, then who knows how powerful he could become. Seeing him leave without harm was proof that this was a powerful, experienced fellow.

Disheartened, Si Donald slowly flew towards Stellar Night fortress.

Reaching, he started to look for Yi Daton, but after going around the entire place, he hadn't found him. He quickly caught a few practitioners circling the outside and asked for a bit before obtaining a scary piece of news.

Lei Bao had actually grabbed Yi Daton. He knew it would be troublesome as doing so was not only revenge, it was also to find out about him.

Si Donald was not afraid of Lei Bao's revenge, he had plenty of experts and influence but he had been shocked by Lei Bao's prudent nature, this fellow had actually already started getting his revenge. He immediately started to search but with Lei Bao's strength, to be able to find him without any underlings would be hopeless.

His entire body was wracked with pain, his temples were in pain while light flashed before his eyes, XinFeng breathed harshly as a voice was gradually heard, "He woke up, big daddy, big daddy, he woke up!"

(Putty: No idea how to translate 大爹.)

Forcefully opening his eyes, stars still dotted his vision, only after a while could he see the surroundings clearly, there was an arc shaped reed ceiling above him and sounds of water flowing at his side, his body swayed with the sound of water and he instantly understood, he must be on a boat.

A skinny boy rushed in with a burly man behind him, in the child's hand was also a wooden bowl. He spoke, "Big daddy, he woke up!"

The burly man replied, "Hehe, I saw." Walking next to XinFeng, he spoke, "Child, you've awoken. Eat something."

The skinny child also spoke up, "That's right, drink some porridge, you've already slept for four days, I thought you wouldn't wake up forever."

The burly man reprimanded, "Little Xin, don't talk rubbish, feed this little brother first." As he spoke, he squatted down and supported XinFeng as little Xin tilted the wooden bowl and started to feed XinFeng.

XinFeng asked, "Here.....where am I? You, who are the two of you?" He suddenly noticed how dry his throat was, not only was he extremely hungry, he was also powerless, he could only lie on the burly man's arm as he drank the porridge slowly, it was a bowl of extremely delicious fish porridge, after finishing a bowl, he felt much better.

The burly man spoke, "We are at Star Hang Lake, we are the fishermen here, my surname is Zhou, this is my nephew, he should be younger than you so call him Little Xin, hehe. Child, what are you called? We found you at the bank of the river...."

Zhou Xin continued, "Yea, yea. Half of your body was still submerged in the water, luckily you were stuck on the reeds or you would have drowned."

XinFeng spoke, "Thank you.....thank you for saving me! My surname is Lei, Lei Xin Feng." He could already tell these two before him were normal humans, not practitioners."

Uncle Zhou laughed, "How could we just leave you to die, hehe, don't worry and rest."

Zhou Xin spoke happily, "I'll call you brother Lei, okay?"

XinFeng nodded, "Okay." He could tell that his fellow didn't have many friends his age, finally meeting someone as old as him, he seemed to be very happy.

Uncle Zhou spoke, "Little Xin, let your brother Lei rest first, when he recovers, he'll play with you."

Zhou Xin nodded, "I'll go catch fish to cook soup for brother Lei."

Uncle Zhou smiled as he nodded, leaving the boat together. XinFeng lay down again with his mind a mess, he needed to think for a while, he knew this time, it was a big problem.

XinFeng did not know how he came here, neither did he know why he had been separated from Yan Wu and the others, he could only remember that he was standing on the Lun spot, whatever happened next he couldn't remember it, the only thing he could be sure about was this this place was definitely not Xi Rong land.

He didn't ask uncle Zhou what continent it was, as for a fisherman, all he knew was where he fished, XinFeng knew this clearly. This place didn't have the advanced communication of his old world, with a large network, having all sorts of commutation methods to connect with the world. This place was more like the ancient version of his world, for a normal human to be able to understand the things happening within a hundred kilometer square was already an impossible feat.

Within Tiger Cliff castle, XinFeng already understood this, therefore he didn't even ask.

Sighing once again, XinFeng decided to recover before going to find grandpa and his little sister.

Taking out a tube of medicine from his Hidden Lun space, something A Silan gave him, a tube of green medicine which could cure most injuries. In a single gulp, he finished it as warmth instantly enveloped him, making him feel relaxed. This sort of medicine was the best one to use on these kind of occasions, within half a day, he could heal completely.

At dawn, XinFeng climbed out of the boat, it's cabin was extremely small. After climbing out, he saw a long bowsprit, uncle Zhou was currently burning a fire while Zhou Xin was killing a fish as thin as his thumb and as long as a foot. This fish was like a snake but without color, it had a translucent body that revealed the bones within, it's skull could be seen clearly too, with only 2 ruby colored eyes. It was a special sort of beauty.

XinFeng squatted down, “Morning, what is this fish? It looks weird.”

Seeing XinFeng coming over, Zhou Xin was instantly elated, “This is a bright fish, the best for broiling soup.”

There were a total of eight bright fishes. Uncle Zhou spoke up, “Little Xin spent his whole night to catch these few bright fish, saying that he wants to let brother Lei taste the best.”

XinFeng asked, “Is this fish really hard to catch?” He noticed a specialty of this place. The more isolated a place was, the kinder the inhabitants were to strangers, the more hospitable and honest they were, it was like that in Tiger Cliff castle too. He had only been here in this world for ten years, more accurately, he was seventeen again, which made him excited.

## Chapter 18: Solitude (2)

Uncle Zhou Replied, "It's hard, to catch this fish you need a special bait."

Zhou Xin had already carefully prepared the Bright fish and placed it in the boiling waters, covering the pot with a lid, he said happily, "Brother Lei, it'll be ready soon, Bright fish is the best for cooking, I had asked great father to pluck a few shoots of Luse grass, xixi, bright fish soup needs Luse grass to truly be delicious.

XinFeng glanced at the small wooden bowl at his side, it contained a bundle of washed tender green plants, something he did not recognize. Neither the fish or the plant was something he had seen before, it was obviously a special produce of this place. He thanked once again, "Thanks, Little Xin."

Zhou Xin replied, "No need for thanks, brother Lei, we don't have any good things here, just some seafood."

Once the water boiled, the bright fish had already melting in the water. Throwing away the bones, it became evident that the soup had nothing in it, it was just a pot of white soup that carried a thick, delicious smell of fish. Sprinkling the grass shoots, Zhou Xin stirred the soup with a wooden spoon before speaking, "Alright, Great Father, let's eat."

Uncle Zhou took off the lid of a small wooden bucket, revealing well steamed rice with a bowl in it filled with smoked fish.

The main dishes here were fish and rice, grain was abundant here.

Excluding the porridge he ate yesterday, this was the first time XinFeng ate fresh rice since coming to this world, it made him feel very moved. Although the grain here was very different from the rice in his previous world, like how it was bigger, green in color and much more delicious, carrying a fragrant scent.

This meal, XinFeng ate half of this bucket of rice, shocking both Uncle Zhou and Zhou xin, this fellow really could eat.

Not only was the rice delicious, the smoked fish was also extremely delicious, as for the soup, it almost caused XinFeng to eat the wooden bowl too, no matter this life or his previous life, he had never drunk such delicious fish soup.

According to XinFeng's appetite, this bit of rice and fish could only fill half his stomach. One must know that in Tiger Cliff Castle, he ate meat most of the time, while he rarely ate grain, only the meat from wild beasts could fill him, after all practitioners were not normal humans.

Uncle Zhou could only smile bitterly looking at the rice bucket, this was the food for a day for them. Fish could be caught but rice must be bought at the market, normally fishermen used all sorts of fish to change for grain, it was extremely expensive and only with 7-8 Jin of fish could they exchange for a Jin of rice.

Zhou Xin laughed, "It's alright Great father, I'll catch more fish since brother Lei likes to eat rice, we'll change for more grain."

XinFeng asked, "There's somewhere selling grain here?"

Uncle Zhou replied, "Yes, there's a large market here, there's a lot of fishermen there every day to trade."

XinFeng nodded, "Alright, let's head to the market, I'll buy some grain."

Zhou Xin asked with disbelief, "Brother Xin, you don't have money with you, how will you buy grain?" He was the one that saved XinFeng, other than a set of clothes on him, he didn't have anything else. Furthermore, his clothes were even in pieces, what he was currently wearing was Great Father's clothes.

XinFeng laughed, "Don't worry, I have a way."

Although Zhou Xin was probably only 13, with a small body, a simple normal human, but he wasn't dumb. "What way would you have? I'll just catch more fish for trading." He was a good fisher.

XinFeng laughed, "Really, I have a way. Little Xin, you must believe me, I won't lie."

Uncle Zhou spoke, "Alright, we have to go to the market anyways, we need to trade for some salt, there isn't much left."

The fishermen here normally went to the market for trading, some for salt, some for grain and others for clothes or daily necessities. Their lives were very simple, they lived for survival, nothing else.

XinFeng asked, "Uncle Zhou, where is your house?"

Uncle Zhou replied, "Here, on the boat. Our house is this boat, during the rainy season we would gather at the market but we still sleep on a boat."

Zhou Xin laughed, he felt that this question was too comical, a fisherman's house was always his boat, there was rarely any land here anyways, it was all lakes and swamps, the fishermen here had their family on boats. Uncle Zhou was a special case, he lived alone with his nephew, who had lost his parents with Uncle Zhou as his only living relative.

XinFeng laughed, "I used to live in a mountainous area, this is my first time on a boat."

Uncle Zhou muttered, "Impossible, within a hundred meters are lakes, there's never been any mountains...."

However, Zhou Xin was very intrigued, "Mountainous areas? Is it fun there?"

XinFeng spoke, "It's different from here, there's a lot of beasts there, very powerful beasts and also barbarians."

Zhou Xin asked, "Barbarians? What's that? Are they human?"

XinFeng asked, "Don't you have Barbarians here?"

Zhou Xin shook their head, "I've never heard of them....."

XinFeng explained, "Then that's not bad, not having barbarians. Hehe, barbarians can be counted as human, but they're more wild and they eat anything, even humans."

Zhou Xin widened his mouth and asked, shocked, "They eat humans?"

Woah, Great Father, you hear that? Barbarians eat humans.”

After conversing with Uncle Zhou and Zhou Xin, XinFeng found out that this was a more peaceful place without many conflicts or dangerous beasts. This place was very isolated and carried a very simple life.

Uncle Zhou was finally moved by XinFeng and returned to the rear of the boat, took the oars and started rowing.

Zhou Xin also started getting busy, he placed the dried lotuses into the cloth bags and took out the dried fishes to arrange them, it was something they could use for trading. There was also a small cloth bag that made ‘Ding Dang’ sounds, it was his precious, with a dozen copper rings inside, it was used to buy things that couldn’t be traded.

The second day’s afternoon, the small boat reached the market.

It was built on water and seemed to be very sturdy from afar, all sorts of uneven wooden houses were built on the water with thick wooden poles built beneath the waters. It wasn’t very deep here and was at most three to four meters deep. Each house was connected with wooden planks while the streets was simply water, with boats as the only mode of transportation.

As the temperature was hot here, the fishermen only wore short pants and had creels tied around their waists as they walked around barefoot. In their hands were normally harpoon like weapons and there were also little tattoos on their body.

As they reached the market, they saw countless little boats rowing towards the market from all four directions.

This place had an atmosphere of tranquility, a good place for practicing. He had already decided to stay here until he had reached the level of a True Milun master with one true ring body, at that time he’ll start traveling. After witnessing a true fight, he had learnt that it would be extremely dangerous for a Milun master to travel alone outside. Since he had a lot of resources now, it was enough for him to practice.

XinFeng also bared his upper body, similarly wearing a linen short, the

only difference was that he didn't have creels tied around his waist or a harpoon in his hands. He did have a cloth bag in his hands carrying dried lotuses, it was a sort of flavor medicine, something practitioners needed. This sort of lotuses was something different from his previous world, its color was a faint red, a special produce of this land, Fire lotus grew in the lakes, to be able to produce these few Jins of Fire lotuses were already not bad.

This bag of lotuses had used up a dozen days of hard work by Zhou Xin, and after peeling and drying it, there was only a few Jins left. According to Zhou Xin, these fire lotuses could trade for a few silver rings and because of XinFeng's large appetite, Zhou Xin had no choice but to take out his precious to trade for grain, one Jin of fire lotuses could trade for a hundred Jin of grains, which was why he had XinFeng carry it.

Uncle Zhou carried a few hundred Jins of dried fish and walked aboard, Zhou xin's creel and this dozen of Bright fishes were worth a lot.

The three of them walked aboard the wooden plank and quickly they reached a rice shop.

Almost everyone here liked bartering, gold rings. There were copper rings, silver rings and gold rings, fishermen mostly had copper rings and only a bit of silver rings were in circulation while gold rings were practically nonexistent, only among shops were gold rings used.

Uncle Zhou placed the dried fish down and shouted, "Old shopkeeper! I'm here!"

An old man sat on a chair with a fan in his hands, gently fanning himself, he asked with a laugh, "Little Zhou, you're here again to trade for grain?"

Uncle Zhou laughed, "That's right, old shopkeeper, how's your business recently?" The two of them seemed to be very close.

The old man sat straight and waved his fan, "It hasn't been good recently, I have too many dried fishes, you know too, the rainy season is almost here, the dried fishes can't last, it's too damp and moldy and the boat crew wouldn't come and take these, ai..." He sighed before

continuing, “There isn’t much, dried fish can’t trade for a lot of grain.”

Zhou Xin spoke, “I have bright fish and a few Fire lotuses.”

XinFeng looked coldly at the side, noticing that the old shopkeeper’s eyes were rolling, he knew this fellow’s words couldn’t be trusted.

The old shopkeeper spoke, “En, fire lotuses are alright, how many do you have?”

Zhou Xin replied, “About 3-5 Jin.”

The old shopkeeper replied, “A Jin for 50 Jin, how’s that? Recently the prices for Fire lotuses have dropped too.”

Zhou Xin had a bitter expression. He had hoped to trade for a bit more but he didn’t expect the prices to drop by half.

XinFeng couldn’t watch this any longer and walked a step forward, “How much for a Jin?”

The old shopkeeper asked, “Money? You have money?” It wasn’t that he looked down on fishermen, but they really did rarely use money to buy rice.

# Chapter 19: Scaly Crocodile (1)

XinFeng asked, "How much for a Jin?"

The old shopkeeper glanced at the youth before him, he had a slender body and an immature face, but he strangely carried an air of maturity and stability, his faint aura was completely different from a fisherman's. Unable to help himself, he spoke, "A Jin for a copper ring and ten copper rings for.....en, eleven jin, you can also use silver rings for eleven Jins.

XinFeng knew how money was used here, ten copper rings were equivalent to a single silver ring and ten silver rings for a gold ring, but copper rings were mainly used as most people preferred trading with items.

Zhou Xin spoke softly, "Brother Lei, I brought money....."

XinFeng stopped him from speaking. In Stellar Night Fortress, he had already collected a lot of gold rings, most of which were given to XinYao, he still had a few bags of gold rings kept in his Hidden Lun space that he had originally wanted to give her, but forgot. To him, these gold rings were basically nothing.

Flipping his hand, a leather bag appeared in XinFeng's hands, its design was extremely intricate and it was made of hazel leather. Pulling open the elastic band at the top, he reached his hand in and grabbed a handful of the things inside, and with a 'ding dang' sound, seven gold rings were placed on the counter. And with another flick of his wrist, the leather bag disappeared.

The old shopkeeper's eyelids fluttered nonstop, he wasn't a simpleton and knew about this skill of practitioners, looking at XinFeng once again, his eyes were full of admiration. Without anymore pride in his voice, he spoke, shocked, "Gold rings! This.....no problem, a gold ring can buy a hundred and ten Jins of grain."

Despite being a fisherman, Uncle Zhou was no idiot, he spoke, "Old shopkeeper, you're selling it too expensively."

The old shopkeeper's expression remained the same, he had indeed overcharged them but this was normal too, he had followed the normal rules. However, the value of a gold ring was rather high, in the market, it could be traded for eleven silver rings instead of ten, and perhaps even more as gold rings were easier to carry around, something all big merchants liked about it.

"Alright, how much should I add?"

"Add ten Jins more for each gold ring."

The old shopkeeper did not speak further and nodded, "Alright, a gold ring for a hundred and twenty Jins of grain, how much are you buying?"

XinFeng spoke, "Just this much." He pointed to the gold rings on the counter.

The old shopkeeper calculated for a while, "Seven gold rings, eight hundred and forty Jins of grain, right?"

XinFeng nodded, "That's right."

Zhou Xin counted on his fingers but couldn't figure it out, seeing this, Uncle Zhou patted him and laughed, "No need to try, you won't be able to calculate it anyways."

XinFeng spoke, "Leave the grain here first, when we're leaving, we'll come and get it."

The old shopkeeper nodded, "Alright, I'll let my men help you carry it on your boat."

As they left, Uncle Zhou specially added, "Old shopkeeper, give us fresh grain, I don't want stale ones, remember, our grain was bought with gold rings."

The old shopkeeper laughed, "Don't worry, I'll give you the best grain!"

Just as they walked through the door, Zhou Xin could not resist the urge anymore and asked, "Brother Lei, where did you put your money pouch, why can't I see it!"

Uncle Zhou knew more and asked slightly stiffly, "Little Brother Lei, are

you a Lun master?”

XinFeng laughed, “Uncle, if I am one, then would you ignore me?” He knew the pressure a practitioner gave to normal humans, he didn’t have a prideful mindset and he was rather okay with normal humans. Especially towards Uncle Zhou and Zhou Xin, who saved his life, giving him more reason to not be prideful.

Uncle Zhou replied, “Of course not. You, you’re really a Lun master?” He still didn’t really believe it.

XinFeng answered, “En, it’s true. However, I’m going to stay here for a while. Uncle, you won’t chase me away?”

Zhou Xin’ mouth widened, after a while, he said excitedly, “Woah, Lun master.....you, you’re really awesome, woah.....”

Uncle Zhou pulled on Zhou Xin and spoke, “Little Xin, be quiet, don’t shout so loudly.....hehe, little Brother Lei, just stay as long as you wish, hehe, I’m just worried that we’re too crude and simple and we’ll drag you down.”

Mostly, normal humans interact with little and hundred Lun masters, calling them all Lun masters. As for true masters, it was impossible to meet them, even if they did they wouldn’t know about how powerful they were and what level were they at, as long as one was a Lun Master, it was enough reason to be respected.

XinFeng spoke, “Little Xin, there’s nothing to be shocked about, is there no Lun masters here?”

Zhou Xin replied, “There is, there is, we have a Lun master here, the water camps are being guarded by Lun masters, but they all live I’m the best houses of the water camp with the shopkeepers practically worshipping them, unlike us who have to live downstream.

XinFeng did not want to involve himself in this topic anymore and asked, “Is there anything else you need? Hehe, I’ll treat you this time, buy whatever you want.”

Uncle Zhou spoke, “I’ll sell this dried fish, hehe, you go trade for some

salt.”

XinFeng nodded, “Alright, we’ll go together.” Then, the three of them walked forward on the wooden platform, quickly reaching a fish store, the dried fish were purchased for a very low price, a single copper ring for four Jins of fish, an estimated four hundred Jins of fish couldn’t be changed for even a hundred copper coins, which was almost equivalent to a gold ring, they directly traded for ten Jins of course salt and three Jins of fins salt, spending most of their money.

After trading for a few more seasonings and a few earthen jars which XinFeng took the initiative to buy after they had spent all their money.

After buying a huge pile of items including underwear, bedding and a fish net, something Uncle Zhou always wanted but it had always been too expensive, but this time XinFeng had bought it. With a fish net then the amount of rewards each day would be different, they had always used thick fish line in the past with a lot of hooks on it, the fishes they could catch was not much, most of their fishes were caught by Zhou Xin who went into the waters.

He had also bought spirits (alcohol) in the market, which most fisherman wanted, the only thing was that it was extremely expensive and that they could normally only drink rice wine they brewed themselves. Only under celebratory circumstances could they trade for a bit of it, but this time XinFeng had bought two big jugs of spirits, that weighed twenty Jin and costs 2 gold rings each.

These two jugs of spirits had made Uncle Zhou smile ear to ear, normally to be able to trade for a Jin of spirits would have been an elating thing, not only could it be used to take care of guests, he could drink it himself, it could ward off the coldness and also made into medicinal alcohol, it could be said to be the precious thing of fishermen.

According to XinFeng’s personality, he even wanted to buy a new boat for Uncle Zhou, only Uncle Zhou refused to allow him to do so, just with these things, he had already felt as though he had gone overboard.

Only at night did the three of them return to the boat, they had spent

their entire day buying items. Uncle Zhou who had returned started to cook dinner.

The small boat was parked on the wooden pier outside of the market, groups of fishermen that parked their small boats there all retired at this time too, the entire pier seemed to be very lively with small traders selling all sorts of snacks, shouting. There was also quite a few children running around on the pier playing, frequently surrounding the traders while biting their nails, looking hungrily at the snacks, of course, they didn't have money to buy anything.

Amongst the traders, the most popular one was of course the sweets store, every child had revealed an expression of longing, but sweets were extremely expensive, a copper coin could only trade for a small pack of sweets with only a few pieces of candy, not many fishermen were willing to spend this money.

But the children of the fishermen always had their ways, for example, one child used the Bright fish he had caught to trade for a small bag, causing the surrounding children to drool.

XinFeng sat at the front of the boat, watching the bustling atmosphere of the pier, his heart incomparably calm at this moment.

A large wooden bucket of rice, a crock of white water boiled fish, a plate of salted white prawns, a small saucer filled with salted, dried carrots and another three bowls of spirits.

The scent of spirits rose and immediately attracted an old fogey of the neighboring boat, he laughed happily, "Boss Zhou, you're drinking?....." The aforementioned word 'boss' was used to call the leader of a boat, it was a crowned term used as a sign of respect, meaning that the "boss" was a man that could control a boat.

Uncle Zhou spoke, "Boss Zhang, you're greedy huh? Haha, come here and drink with us!" Relations among fishermen were not bad and they were all easygoing men, there would rarely be any coyness among them.

Boss Zhang brought a crock with him and spoke, "I hunted a mallard, it should be done now, the temperature is just right." He placed his crock

down and took up a wooden bowl, drinking a mouthful of spirit, he sighed and praised, “Good wine, hehe, Boss Zhou, have you struck gold, you’re actually drinking such a good wine.”

The two of them were very close. Uncle Zhou replied, “Boss Zhang, has there been any news recently? I just came back.”

Boss Zhang laughed, “There’s one piece of news, you know the Tian family’s fourth child went to hunt a scaly crocodile fish, I heard they even hired a Lun master. No one knows if they succeeded yet.”

(Putty: 鳄蛟鱼 = crocodile scaly fish.)

Uncle Zhou asked shocked, “A scaly crocodile fish? They’re too daring, that thing is brutal after all, if they aren’t careful, their boat will shatter.”

XinFeng asked curiously, “What scaly crocodile fish?”

Uncle Zhou replied, “A sort of cruel fish, it eats humans!”

Boss Zhang spoke, “This fellow looks unfamiliar, Boss Zhou, is he your relative?”

Uncle Zhou vaguely confirmed it, XinFeng had already asked him to keep the secret about his status as a Lun master, therefore he didn’t dare to speak rashly. Boss Zhang laughed, “Little brother doesn’t seem to be from here, the scaly crocodile fish is extremely famous.” He then continued to brag about the strength of the scaly crocodile fish.

The scaly crocodile fish was similar to crocodiles, but its hind legs were replaced by fins with sharp claws on its forelimbs, it also had a long mouth that contained teeth as sharp as knives, its body was a meter on length. A mature scaly crocodile fish could easily crush a small wooden boat, normal fishermen never dared to irk a scaly crocodile fish and upon seeing them, they would immediately flee.

## Chapter 20: Scaly Crocodile (2)

However, the entire body of a Scaly crocodile was a treasure, a single mature scaly crocodile was worth at least three to four hundred gold rings, especially its gall bladder, an ingredient of a medicine for practitioners, therefore many fishers would still risk their lives to hunt it.

Boss Zhou asked, "They couldn't have went to Big Stroke Bay? It's extremely dangerous there.

Boss Zhang laughed, "Of course it's Big Stroke Bay, it's infested with Scaly crocodiles after all."

Zhou Xin muttered softly, "That's courting death."

Boss Zhang gently slapped him, "Little fellow, don't speak nonsense."

Zhou Xin became indignant and mumbled, "The fourth child of the Tian family is an unreliable fellow."

The four of them continued drinking while XinFeng ate prawns nonstop, fish were normal to him, and his interest in them was average in his past life, but he lived to eat prawns. Therefore, when he saw this plate of salted white great prawns, his favorite, caused him to eat nonstop, as for the spirit, he only drank a mouthful. This flavor was actually quite average to him, it was only a bit stronger.

Boss Zhang and uncle Zhou drank very slowly, it wasn't that they couldn't hold their liquor, but they couldn't bear to. Coming here, boss Zhang only drank a bit, he embarrassedly controlled the amount he drank but without 2-3 Jins, it was impossible for him to feel good.

Zhou Xin and XinFeng both drank a mouthful, the two of them loved to eat more.

Suddenly a crashing sound were heard, all of the children ran to the pier, as after all Zhou Xin was still a child, seeing such a commotion, he also couldn't help but run there. He shouted, "Brother Lei, let's go look!"

XinFeng was also almost done eating, after washing his hands in the lake, he jumped up to the pier and followed the group of children.

A few wooden boats headed over, one of which was especially big with the length of roughly twenty meters and three large sails, but it still wasn't at the center of the attention, the thing that attracted the commotion was that the gunwale of the boat hooked a large fish at least eight meters long, slightly longer than the small boat next to it, someone shouted, "Heavens, that's a Scaly Crocodile!"

"That's the fourth son of the Tian family! The one standing at the front is the fourth son of the Tian family! This fellow struck gold!"

"Ai, which one is it? Who are they?"

"Don't talk so much, that's a Lun master!"

Many fishermen also sailed over, their eyes widened as they stared.

A total of four small boats and a large one quickly reached the pier, a few men got off the boat and used large steel hooks to grab the scaly crocodile, using force to drag it up the wooden pier, causing a cracking sounds to appear, this thing is truly too heavy, how could the piers here withstand such a weight? Some fishers shouted, "Too heavy, the pier is collapsing!"

The large tail of the scaly crocodile was dragged onto the pier, the body still sinking in the water, but it couldn't be dragged up further or the pier would really collapse.

The children all curiously surrounded it, and Zhou Xin wasn't an exception either, he leaned extremely closely, curiously reaching his hand out to touch the scales of the scaly crocodile.

XinFeng stood a distance away, this was his first time seeing such a large aquatic fish, but he wasn't that surprised, this world's creatures were different from the ones that roamed his old world, but he could still find similar creatures, like pigs, cows, chickens, ducks, dogs and wolves, but there was many he didn't see before, he had already become used to this fact.

This scaly crocodile was just an especially large crocodile to XinFeng, the only thing that made him curious was the color of the scaly crocodile,

it's scales were a deep blue color and under the twilight, it was extremely beautiful and weird at the same time.

XinFeng turned around and walked back, but as he took his first step, he heard a 'pipa' sound, that sound was extremely familiar to him, it was the sound of a slap. Following that sound was a pained cry, hearing this his expression changed and he abruptly turned his head around, seeing Zhou Xin hold his cheek with tears in his eyes, staring fearfully at a young man, who had a beautiful twenty year old woman behind him.

At that instant XinFeng felt as though he was slapped himself, his nature was rather similar to Lei Bao, a short tempered person. Although Zhou Xin was just a child, he saved his life and was an extremely sensible child who called XinFeng his "Brother Lei", even if he was a normal human, XinFeng had treated him as his little brother. He didn't know why Zhou Xin was hit, but he knew, his anger had already surged up to his head.

"Bastard! Who let you touch miss?"

That young man scolded.

XinFeng walked over with the urge to kill, it wasn't that he liked killing, but after training in the Lightning attribute, it changed his personality. Once angered, his first thought will be to kill, an intense urge to murder, only through death could that anger be quelled.

Zhou Xin had been slapped silly, since young he had lived with his uncle, he had never been hurt by another person and adding the fact that he didn't come into contact with many people other than the friends of his uncle, who were all very friendly. He had never met such an evil person and he couldn't understand why he was hit, he could only dumbly stare at that man.

That man got angrier and his hand raised yet again.

Pa!

The crowd stared as they noticed the young man retreating backwards while holding his cheek, while a youngster stood in front of Zhou Xin, the

youngster took another step forward and slapped him yet again.

After slapping the young man continuously, the youngster finally stopped.

Zhou Xin was also scared silly, he didn't expect XinFeng to appear and slap that man so many times, he now knew how painful it was being slapped.

That young man almost went mad, he hadn't been slapped so viciously before, his face was slapped swollen, when XinFeng finally stopped, he couldn't speak anymore and could only hold his face as he mumbled sentences no one could understand.

"My heavens, that's the son of the fourth child of the Tian family, Tian Dabin, he's a Lun master!"

"Which family does that fellow belong to?"

"It seems that that fellow struck him because the nephew of Zhou Tong was hit."

"How unsightly, an adult bullying a child!"

"Shh! Be quiet, Tian Dabin is really tyrannical, be careful or he'll come find trouble with you."

The surrounding fishers all started their own conversations.

Tian Dabin finally caught his breath and jumped up, shouting, "You dare to hit me?"

Pa! Pa! Pa!

Another three slaps sounded, disorienting his mind. XinFeng hadn't quelled his anger yet and hearing him shout again, he immediately came forward, slapped him yet another three times and spoke indifferently, "So I have....what can you do?"

Slaps couldn't kill, XinFeng had already controlled his strength and didn't slap him with his Lunli, he had used a bit of strength and not all of it, if he did then perhaps that guy's brain would have already been splattered onto the ground.

Dong! Dong!

Two sounds appeared as two men jumped off from the large boat, an adult and a young man, the two of them ran to Tian Dabin, the middle aged man held him up and asked urgently, “Dabin, Dabin, are you okay? Are you hurt, have you been hurt?”

Blood leaked from the sides of his mouth and his nose, his face rapidly swelling, he said lisping, “Dad, he, he hit me.....”

The eyes of the fourth son of the Tian family redden and he spoke, “Who are you, to hurt my son?”

XinFeng was really peerlessly domineering, he didn’t chit chat and took a step forward, kicking him to the ground, “I learned from you, to hit my little brother, get ready to be beaten!”

The young man from the side spoke, “Little-, you’re too crazy!”

XinFeng said indifferently, “Apologize to him and I’ll let it go, I won’t ask you what happened but to hit my little brother, you must pay a price.” At this moment he didn’t even feel like doing anything logically, against unreasonable people, you’ll just have be more unreasonable, or the matter won’t get done or resolved.

A tinge of a ferocious expression appeared on that young man, he spoke, “You....which sect are you from?” He was sure that a normal human would never be so crazy, only practitioners would be so overbearing.

XinFeng spoke, “So what if I’m a normal human? So what if I’m a Lun master?”

Without waiting for that young man to reply, another man jumped off the boat and walked before XinFeng, asking, “Little fellow, en? You.....you....” He probed slightly and couldn’t help but reveal a shocked and unbelieving expression.

Zhou Tong walked forwards swiftly and squatted next to Zhou Xin, asking “Little Xin, why did he hit you?”

Zhou Xin replied indignantly, “I was only curiously touching the scaly

crocodile.....and he, he hit me.....” He couldn’t understand why he was hit no matter how much he thought about it.

Tian Dabin spoke, “He stepped on Ah Bao’s foot.....so it hit him....” Ah Bao was the woman that hadn’t spoke from the beginning.

That middle aged man could feel that XinFeng was different, but he didn’t know by how much. He himself was a ten thousand Lun Master, the master of Tian Dabin, seeing his disciple being hit how could a master still be seated. As for why he didn’t attack, was that the results of his probing made him uneasy, as he could feel that XinFeng had an unfathomable strength.

The middle aged man couldn’t understand, the youngster before him could at most be only 17-18 years old and didn’t seem to have matured yet, how could he be so powerful, even if he trained, how powerful could he be?

XinFeng stared coldly, the middle aged man, the young man next to him, the young woman named Ah Bao and also that Tian Dabin were all probably practitioners. But he could clearly understand that the strongest one among them was that middle aged man, a ten thousand Lun master. All of them were very low leveled, seeing too many true master experts, he didn’t really care about a ten thousand Lun master, after all he was a Milun master.

Tian Dabin shouted, “Master, senior, seek vengeance for me! Kill him!”

The surrounding seniors all couldn’t help but take a step back, a Lun master killing, especially killing normal humans was something that couldn’t be redressed. If he was killed so be it. Normal humans all feared practitioners and upon hearing Tian Dabin shouting for revenge, they all felt terrified. Only a small clash and they were already ready to kill.
